ActiveSG Punggol Sport Centre opens to the public on 22 November 2026, giving Singaporeâ??s north-east one of the countryâ??s largest ActiveSG hubs. Sport Singapore (SportSG) says the six-storey centre, spread over five hectares along Punggol Waterway, is built for everyone from families trying a sport for the first time to national athletes in training.

What is inside ActiveSG Punggol Sport Centre

The headline numbers are big. There are five swimming pools, a 5,000-seater football stadium, a 3,000-seater Team Sport Hall that doubles as the National Training Centre for volleyball, and an 18-lane archery field on the rooftop. A 2,000-seater indoor hall takes badminton and pickleball, and there are sheltered tennis and futsal courts, a Water Sport Centre and a 10th Active Health Lab.

Swimming complex on Level 1

The sheltered competition pool seats up to 600 spectators and has a World Aquatics-compliant timing system, a first for an ActiveSG pool. Alongside it are a training pool at 1.2 metres deep, a kidsâ?? pool of 0.1 to 0.3 metres, and the wellness and lagoon pools, both with wheelchair-accessible ramps.

An inclusive gym on Level 2

The 1,500 sqm gym is one of the largest in the ActiveSG network. It has machines with removable seats for wheelchair users and HUR pneumatic machines, which use air pressure for controlled, joint-friendly resistance. Two activity rooms host classes such as Zumba, cardio dance and aerobics.

Courts, stadium and archery

Level 3 has six sheltered tennis courts, three with dual-use markings for pickleball, plus the indoor sport hall and the Team Sport Hall. Futsal courts are on Level 5, and the archery field on Level 6 was developed with the Archery Association of Singapore. The stadium at ground level gives local football a new home for competitive matches.

Opening celebrations on 22 November

The opening celebrations run from 8am to 1pm on 22 November, with carnival games, sport try-outs and free access to the gym and swimming pools. The morning also marks the 10th anniversary of ActiveSG Academies and Clubs, with mini tournaments and a gallery of milestones.

Most facilities can already be booked on MyActiveSG+ at activesg.gov.sg. Singapore Citizens and PRs can use ActiveSG credits to offset facility, gym and pool fees, and anyone with credits left is encouraged to make one booking before 31 December 2026 to roll the balance into 2027.

A green centre in Punggol

The centre has a solar-ready roof, green roofs, rainwater harvesting and high ceilings for natural ventilation. It has earned BCA Green Mark Platinum (Super Low Energy) and PUBâ??s Active, Beautiful, Clean Waters certification. It sits near Sam Kee LRT Station, One Punggol and the Singapore Institute of Technology campus.
