Adventure Cove Waterpark at Resorts World Sentosa (RWS) closes from 1 January to 31 December 2027 for what the resort calls â??a major refurbishment and transformationâ?•, so December is the last month to ride Riptide Rocket or snorkel Rainbow Reef in their current form. RWS has named neither a reopening date nor the new concept, and promises details later.

RWS is calling the rest of 2026 â??one last hurrahâ?•. There is a group ticket deal that runs to 31 December, and from 16 to 22 December an adult ticket also gets fans into the BTS THE CITY ARIRANG Fan Village.

Hours, tickets and getting there

The park at 14 Sentosa Gateway opens from 10am to 5pm. Drivers park at B1 East Car Park, and the recommended drop-off is the B1 Casino Entrance. Outdoor attractions stop in bad weather, and outside food and drink are not allowed.

One-day tickets come in two categories: adults aged 13 and above, and children aged 4 to 12. Tickets bought on the RWS website carry a seven-day validity window from the date you pick.

The last-season group deal

Joyful Splashes Plus One works two ways. Buy two one-day tickets and the third is free. Buy three and the fourth is free, along with four S$5 vouchers for the parkâ??s food and retail outlets, each with a minimum spend. The deal is online only, for dated tickets bought by 31 December 2026 and used between 17 November and 31 December. Promotion tickets cannot be cancelled, refunded or transferred.

BTS fan village entry from 16 to 22 December

From 16 to 22 December, a standard adult Adventure Cove ticket comes with complimentary same-day entry to BTS THE CITY ARIRANG Fan Village, part of the resortâ??s Season of Joy programme. Fans show the adult ticket at the Fan Village ticketing counter to collect the same-day pass. Not every group promotion or non-standard ticket qualifies, so check the terms of the ticket you buy.

The rides before the break

Riptide Rocket is the parkâ??s hydro-magnetic water coaster, with a minimum height of 107cm and a supervising adult for riders between 107cm and 122cm. Pipeline Plunge, Spiral Washout, Tidal Twister and Whirlpool Washout all start at 122cm. Dueling Racer is the two-lane mat slide for anyone who wants to race a friend.

The gentler side is Adventure River, a floating loop through 14 themed zones and a marine-life tunnel, plus the Bluwater Bay wave pool. Rainbow Reef puts snorkellers among more than 20,000 reef inhabitants, from 107cm and only for guests comfortable breathing through a standard snorkel. Ray Bay and the other animal encounters may cost extra.

Tickets dated in 2027 and season passes

Anyone holding a ticket affected by the closure can write to attractions@rwsentosa.com. RWS will contact season passholders with their options, and they can also reach the team at membership@rwsentosa.com. Booking runs through the official Adventure Cove Waterpark site.
