AirPods 5 available in Singapore from today: S$199 or S$219 Wireless Charging Case

Description

default watermark

Appleâ??s Singapore store lists **AirPods 5** as available from **Friday 18 September 2026**, from **S$199**, or **S$219** with the Wireless Charging Case.

AirPods 5. Photo: Apple

Pre-orders opened earlier in the week. Today is the first retail date on apple.com/sg, so the story is availability and pickup rather than another full price dump.

What you can buy today

Both configurations include open-ear Active Noise Cancellation. The Wireless Charging Case model adds a force sensor with volume swipe and longer listening time with ANC, and it works with an Apple Watch charger or a Qi charger. Appleâ??s board still shows a limit of six AirPods 5 per customer.

Neither option includes a USB-C charge cable or power adapter in the box. If you need those, they are sold separately on the same store.

Online, pickup, and stores

Buy on apple.com/sg. Free delivery is listed for Singapore orders. If you want the buds the same day, check the pickup slots shown in checkout for Apple Store Orchard Road or an authorised reseller with stock.

Carrier shops and authorised dealers usually follow Appleâ??s retail date, but bundle pricing and same-day stock sit on each sellerâ??s page. Do not assume every mall counter has both case options on day one.

Quick fit check before you pay

AirPods 5 stay open-ear. Live Translation and hands-free Siri AI need a compatible iPhone with Apple Intelligence turned on, and some features roll out by language and region. If you mainly want silicone tips and deeper seal, compare against AirPods Pro on the same Apple Store page before you commit.

Singapore prices on apple.com/sg remain S$199 and S$219 for the Wireless Charging Case, with retail fulfilment from Friday 18 September 2026.
