

## All Blacks Rugby Clinic Singapore 2026: Queenstown Five-Day Programme Guide

### Description

All Blacks Rugby Clinic Singapore 2026 is a serious June programme for young rugby players, not a casual one-hour taster. It runs from 8 to 12 June at Queenstown Stadium, from 9am to 4pm each day.

The listed coaches include former All Blacks and Rugby World Cup winners Nehe Milner-Skudder and Victor Vito, with the clinic built around skill work, tactical development, conditioning and mindset.

### Dates, Venue And Fee

- Dates: 8 to 12 June 2026.
- Time: 9am to 4pm.
- Venue: Queenstown Stadium, listed as TBC on the event details.
- Fee: S\$750.
- Lunch and snacks are included.

### What Players Can Expect

The programme combines technical and tactical training with strength and conditioning, leadership, recovery and insight into the All Blacks culture. That makes it a better fit for players who can handle a full-day training rhythm.

Parents should check the child's current rugby experience, heat tolerance and recovery needs before booking. A five-day block from 9am to 4pm is demanding even for children who already play regularly.

### Other Rugby Options

Younger or newer players can compare this with the Get Into Rugby 2.0 programme, which is structured as a non-contact pathway. Families looking at broader endurance sport can also read
