

Amazon.sg Black Friday Sale 2026: 19 to 30 November, with flash vouchers three times a day

Description

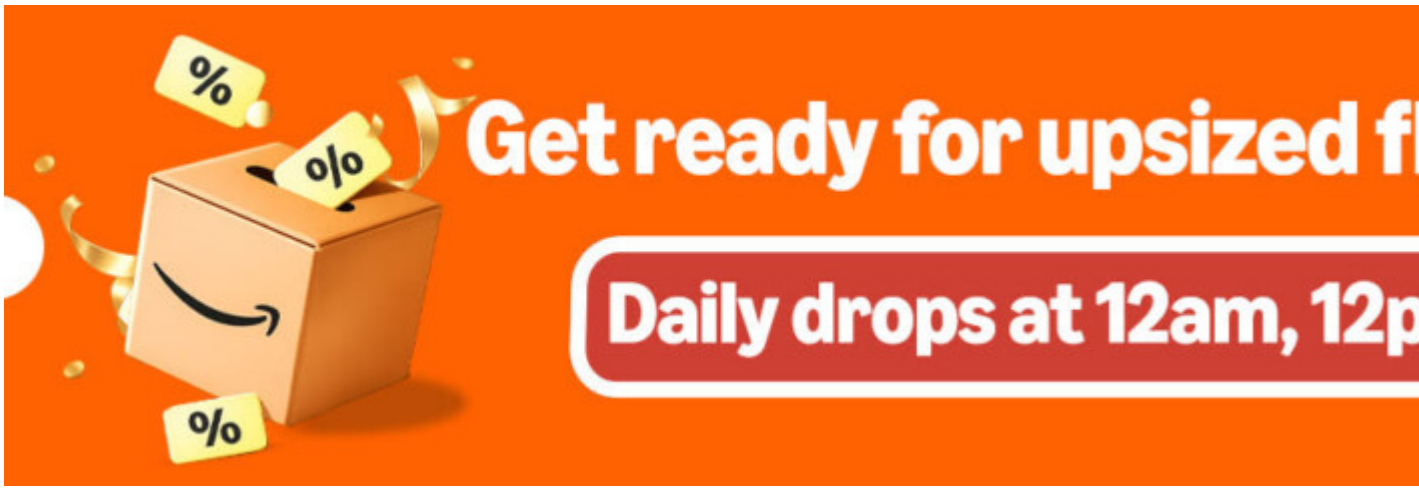

default watermark

Amazon.sg has set its Black Friday Sale for 19 to 30 November 2026, and its own sale page already carries early deals from the International Store. Flash vouchers drop three times a day at 12am, 12pm and 6pm. If you are shopping for Christmas gifts, it is a 12-day window, so pace yourself.

Amazon.sg Black Friday Sale 2026: the dates and the voucher drops

The sale banner on amazon.sg/blackfriday reads 19 to 30 November, and Amazonâ??s flash voucher banner promises upsized vouchers with daily drops at 12am, 12pm and 6pm. These sit on the Voucher Zone page, and you clip them before you check out. Vouchers go while stocks last, so set a reminder rather than hoping they are still there at lunch.

The early deals currently showing on the sale page come from the International Store, which means shipping from overseas sellers. Price tags on the page range from about S$16 for a polo shirt (marked 40% off) to over S$2,000 for a gaming laptop. Check the delivery date before you commit, because international items take longer than local stock. Also watch the final price after shipping, since a low sticker price can climb at checkout.

Is Prime worth it for this sale?

default watermark

Amazonâ??s Singapore Prime page lists S$4.99 a month or S$49.90 a year, with a free 30-day trial for new members that converts to paid unless you cancel. Prime covers free delivery on a wide selection of items, free international delivery plus up to 10% off over a million qualifying items from Amazon US and Amazon Japan, and access to Prime member deal events.

Do the maths for your own basket. If you mostly buy local items that already clear the free delivery threshold, the trial may be enough to cover this sale. If you are ordering from the US or Japan stores, the delivery savings are the bigger draw.

How to shop the sale without overspending

- Open the Voucher Zone at amazon.sg/voucherzone before each drop and have your cart ready.
- Clip the voucher first, then add items; the discount applies automatically at checkout.
- Compare the sale price with the â??wasâ?• or list price on the page, since not every Early Black Friday Deal shows one.
- Look at the seller and delivery estimate on each item, especially for International Store listings.
- Screenshot your cart total so you can compare it with what you actually pay.
- Set a budget before 19 November so the vouchers do not decide it for you.

Amazon has also teased gift card promotions on amazon.sg/giftcard, but has not published details yet.

Terms apply to all offers, and prices and availability can change. Amazon.sg is not the only Black Friday action in town either, so see our notes on Samsung Singapore Black Friday 2026 and Harvey Norman Black Friday Comes Early before you decide where to spend.
