Those are the live figures on apple.com/sg. The watch line on the store is Series 12, not Series 11.

iPhone 17

The Singapore buy page starts iPhone 17 at S$1,449 for 256GB across Mist Blue, Lavender, Black, White and Sage. The 512GB step is S$1,749 for the same five finishes.

256GB is the entry capacity on this model. GST is already in the store price. Unlocked SIM-free stock from apple.com stays unlocked after activation.

Apple Watch Series 12

Apple Watch Series 12 opens at S$599 on the Singapore store for aluminium, titanium or ceramic cases in 46mm or 42mm. Ultra 4 and SE 3 sit on separate price lines above and below that floor.

GPS and GPS + Cellular configs are both listed. Cellular needs a provider plan; the GPS model still needs the paired iPhone nearby for calls and messages.

AirPods 5

AirPods 5 are S$199. The same buds with the Wireless Charging Case are S$219. Both include Active Noise Cancellation on the Singapore product page. There is no AirPods 4 SKU on this buy sheet.
