

Bari Bari Grand opens at Capitol with hot-stone Miyazaki teppan and a free-flow gourmet bar

Description

Bari Bari Grand has opened at Arcade @ The Capitol Kempinski, bringing the brand's premium teppan format a short walk from City Hall MRT after its Tampines debut earlier this year. [Bari Bari Steak](#) positions the Capitol outlet as its Grand line: Japanese A4 and A5 Miyazaki wagyu cuts and seafood, finished on a 300°C hot stone at the table, with free-flow access to a Japanese gourmet bar on every teppan order.

Capitol Singapore puts the restaurant at 15 Stamford Road, open daily from 11am to 10pm. Bari Bari Grand is at #01-82 Arcade @ The Capitol Kempinski, Singapore 178906, with bookings on 6284 3788.

Hot stone, then the bar

Each teppan plate arrives with a high-density Japanese stone heated to 300°C, so diners can take the meat from the house medium-rare finish to their preferred doneness. Steaks come crowned with a house herb butter. The complimentary gourmet bar rotates salads, seasonal starters and Japanese-inspired bites for the table.

A sashimi add-on menu is available.

How it sits against the first outlet

Bari Bari Grand is the premium offshoot of Bari Bari Steak. Tampines came first in January; Capitol is the city second stop. The format stays interactive rather than chef-only teppanyaki: you finish the cut yourself on the stone, then graze the bar without a separate buffet ticket.

City Hall MRT exits onto Stamford Road. The Capitol Kempinski arcade sits on the same block as the hotel lobby shops. The restaurant is not halal-certified.
