The Best Denki 11.11 Super Sale is live on bestdenki.com.sg, and the headline perk needs no code: S$11 off for every S$100 you spend on eligible items, taken off at checkout. The discount is capped at S$231, which you reach on a S$2,100 cart, and Best Denki says it runs only while redemptions last.

That makes it an online-only, first-come-first-served offer with no fixed end date. If you have a washer, fridge or kitchen appliance on your list, move earlier rather than later.

How the Best Denki 11.11 Super Sale discount works

From Best Denkiâ??s online promotion terms:

- S$11 off every S$100 spent on eligible items sitewide, applied at checkout.
- No promo code required.
- Capped at S$231 per order, so the full discount kicks in at S$2,100.
- Online purchases only, while redemptions and stocks last.

Since the discount comes in S$100 blocks, here is what different cart sizes get, assuming every item is eligible:

- S$100 to S$199: S$11 off
- S$500 to S$599: S$55 off
- S$1,000 to S$1,099: S$110 off
- S$2,100 and above: S$231 off, the maximum

Spending S$199 gets you the same S$11 as spending S$100. If your cart is sitting at S$290, a S$10 extension cord or a pack of bulbs will take you to S$300 and an extra S$11 off, which basically pays for itself.

In practice, a S$350 cart gets S$33 off, and a S$1,069 washer gets S$110 off if it qualifies. That works out to about 11% off on top of the marked-down price, which is decent for big-ticket items that rarely go much lower.

What is excluded

The list of exclusions is long, so check it before you plan around a particular product:

- Apple products, mobile phones and smartwatches
- Limited offers, pre-order items and promotional items
- Miele, Brandt and Epson products
- Software and extended warranty

Since â??promotional itemsâ?• and â??limited offersâ?• are both excluded, some items with a special price may not count towards the S$100 blocks. The terms do not spell out which listings fall under those labels, so add items to your cart and check that the S$11 line appears before you pay.

Separate codes for Apple, phones and aircons

Apple and phones are left out of the S$11 deal, but Best Denki is running its own e-coupons on the same page:

- Apple: S$20 off S$700 to S$1,299 with BDSAPL20, S$30 off S$1,300 to S$1,799 with BDSAPL30, and S$40 off S$1,800 and above with BDSAPL40, on selected Apple products.
- Smartphones and tablets: MOB20, MOB30 and MOB40 for the same three spending tiers. These do not apply to promotion items, pre-orders, Apple, or the Google and Samsung products named in the terms.
- Aircons: code BESTAIRCON for up to S$388 off eligible air conditioners.

If you need an aircon anyway, the BESTAIRCON code is probably worth more than anything else on this list. It is a separate code from the S$11 deal, though, so check which one your cart takes.

Before you check out

Best Denki says it can amend or end the promotion without notice, and the general online terms limit promotional and limited-offer items to one per customer. Delivery charges are extra where they apply. Compare prices with what we saw in the Courts and Harvey Norman deals from late October and the Audio House anniversary sale before you commit to a large appliance.

For PC parts and monitors, the Challenger Deepavali codes ended on 4 November, so Best Denkiâ??s laptop listings are worth a look if you missed them. Full terms are on Best Denkiâ??s online promotion page.
