

Best Denki Black Friday Singapore: S$19 to S$99 off phones, to 30 Nov

Description

default watermark

Best Denki is running a Black Friday voucher ladder on phones and tablets from 27 to 30 November 2026, with **S$19 to S$99 off** applied automatically at checkout on its homepage. The spend tiers, Apple codes and a few marked-down handsets are below.

The Mobile & Tablets offer covers Samsung, HONOR, Google, OPPO and vivo phones and tablets. A sitewide banner has its own terms, covered further down.

Best Denki Black Friday Singapore: the auto discounts

No code is needed for the main tiers. The discount drops in at checkout for eligible products, and the bigger the spend, the bigger the cut.

- Spend S$500 to S$888: S$19 off
- Spend S$889 to S$1,288: S$39 off
- Spend S$1,289 to S$1,788: S$59 off
- Spend S$1,789 and up: S$99 off

Best Denki also lists a second ladder of S$20, S$30 and S$40 off for spends of S$700 to S$1,299, S$1,300 to S$1,799 and S$1,800 and above. Those are labelled limited redemptions, so they can run out before the weekend ends.

Apple codes and the iPhone 18 Pro

Apple products have their own codes in the same ladder: BDSAPL20 (S$20 off), BDSAPL30 (S$30 off) and BDSAPL40 (S$40 off), at the same three spend bands. The page marks these as limited redemption too.

The iPhone 18 Pro tile on the homepage shows a starting price of S$1,899. That sits in the S$1,789-and-up band for the main phone ladder, though whether Apple handsets qualify for it is something to confirm at checkout.

Handsets with a marked-down price

The mobile block also lists items with a slashed price. These are among the marked-down prices listed:

- OPPO Reno 16 12GB+256GB: S$799, from S$899 (save S$100)
- HONOR Magic8 Pro 12+512GB: S$1,349, from S$1,499 (save S$150)
- OPPO Find N6 16+512GB: S$2,299, from S$2,699 (save S$400)
- OPPO Watch S: S$189, from S$279 (save S$90)
- HONOR Watch 6: S$231, from S$289 (save S$58)
- Samsung Galaxy A08 4+128GB: S$248, from S$278 (save S$30)

The OPPO Find N6 shows the biggest dollar saving at S$400, about 15% off. The OPPO Watch S is the biggest percentage cut on the list, at roughly 32%.

If you are eyeing a foldable, the arithmetic is worth doing. A S$2,299 sale price for the OPPO Find N6 clears the top spend tier of S$1,789, and if the checkout discount applies to that handset, the voucher would come off on top of the markdown. Confirm in the cart before paying.

The sitewide banner

The Black Friday banner on the homepage says up to 70% off, free gift and delivery, an extra up to 11% off with no code, and a further S$20 off with code BFMEMBER on a minimum spend of S$2,000. It lists no end date, and the terms apply, so check the details before you rely on it.

Best Denki is a Singapore electronics chain with an online store and Click and Collect, and the homepage also shows same-day delivery and e-gift card options. Delivery timing during a four-day sale

is not guaranteed, so choose the option that suits your schedule.

Before you check out

- The auto discount tiers end on 30 November 2026
- Stock and redemptions are limited, so earlier is safer
- Apple pre-order and online-only items may ship after the sale ends
