

Circles.Life and giga! bundle ChatGPT-class AI into mobile plans from about S\$8

Description

Virtual telcos Circles.Life and StarHub's giga! brand are bundling paid AI model access into mobile plans from as low as about S\$8 a month, giving Singapore users a low-cost route to ChatGPT, Claude, Gemini and other tools without separate subscriptions.

What Circles.Life lists

Circles.Life's current plan board advertises free CirclesAI access across several SIMs, including Circles Core 5G at S\$8 a month with 500GB local data and unlimited local calls. The CirclesAI stack on the site names OpenAI, Google Gemini, Perplexity Sonar Pro, Anthropic Claude, DeepSeek and Qwen. Higher tiers such as Circles Plus and Circles Pro add Asia or global roaming at higher monthly fees.

What gigaFLEX+ includes

giga! launched gigaFLEX+ on 17 June 2026 for customers aged 15 to 29. The plan bundles free gigaAI access to ChatGPT, Claude and Gemini, 300 image generations a month, 800GB of 5G data across Singapore, Malaysia, Indonesia and Thailand, plus 22GB of roaming. The first 9,999 sign-ups pay S\$13.90 a month for 12 months, then S\$19.90.
