

Earthopia Fest 2026 Is Back â?? Three Days of Sustainability, Art, and Music at Fort Canning Green

Description

Sustainability festivals have a tendency to feel like lectures â?? a circuit of stalls where every exhibit reminds you that the planet is in trouble. Earthopia Fest 2026 is taking a different approach.

Now in its second edition, the youth-led festival organised by [City Sprouts](#) returns to **Fort Canning Green from 29 to 31 May 2026**, running from 10am to 10pm each day. The premise is simple: make sustainable living feel like something you actually want to be part of.

More Than a Market

With over 100 content partners spanning arts, wellness, fashion, food, technology, and community, the three-day event is shaping up to be one of the most diverse sustainability festivals the city has seen. Organisers are targeting over 5,000 participants across the weekend.

The grounds will feature a curated Marketplace by Sunday Social and City Sprouts Farmer Collective, a Circular Styles thrift zone with partners including Fashion Parade, Playdate Thrift, and The Fashion Pulpit, and a full slate of interactive art installations â?? among them *Disposable Planet*, *E-Fossil*, *Scarecrow Guardians*, and *SOAR*.

Live Music and Youth Performances

Earthopia 2026 also has a concert-worthy music lineup, with sets from SHYE, Club Mild, SOBS, Heema Izzati, Jukuleles, and a full roster of ground-up youth bands.

Hands-On Workshops and Insights

For those who prefer doing to watching, the festival offers breakout sessions run by some of Singaporeâ??s most thoughtful organisations. Tracks include:

- **Plastic Upcycling with Cirqulo** – turn discarded soft plastic bags into a customised pouch and keep them out of the landfill
- **Fashion & Identity with Fashion Parade x Playdate Thrift** – explore personal style while rethinking consumption
- **Climate Anxiety with Mindful Camp** – practical tools for managing eco-anxiety in personal and professional life
- **Earthling Exchange** – meet tech and design innovators working on sustainability solutions at scale

For Media: Preview on 29 May
