

Enterprise Financing Scheme Project Loan: What SMEs Should Know In 2026

Description

EnterpriseSG's Enterprise Financing Scheme Project Loan supports eligible overseas projects and project financing needs.

Enterprise Financing Scheme Project Loan remains one of the EnterpriseSG financing tools Singapore companies should understand when planning overseas projects, project financing or larger contract commitments in 2026.

What It Is For

The scheme is designed around project financing rather than everyday working capital. That makes it more relevant when a company has a specific project, contract or overseas expansion need that requires structured financing support.

What SMEs Should Check

- Whether the project fits the financing purpose.
- Whether the company can meet lender assessment requirements.

- Whether Budget 2026 enhancements affect the applicable support.
- Whether the business has project documents, financial statements and repayment assumptions ready before approaching a lender.
