

GTA VI Singapore price: S$109 Standard and S$136 Ultimate on PS Store, out now on PS5 and Xbox

Description

default watermark

Grand Theft Auto VI is out now, and the GTA VI Singapore price on the PlayStation Store is S$109 for the Standard Edition and S$136 for the Ultimate Edition. Rockstar Games lists the game for PlayStation 5 and Xbox Series X|S, and the PS Store shows a release time of midnight on 19 November, Singapore time. Here is what the two editions mean for your wallet, plus the early purchase bonus Rockstar is pushing.

GTA VI Singapore price: Standard S$109, Ultimate S$136

The Singapore PlayStation Store lists the Standard Edition at S$109 and the Ultimate Edition at S$136, both for PS5. That is a S$27 gap between the two. Neither listing shows a discount at the time of writing.

Rockstar says on its official GTA VI page that the game is now available on PlayStation 5 and Xbox Series X|S, and tags PS5 as the platform where it â??plays bestâ?•. I could not check an Xbox price for Singapore, so look at the Microsoft Store listing yourself before you buy there.

- Standard Edition: S$109 on the Singapore PlayStation Store
- Ultimate Edition: S$136, which adds an exclusive collection of in-game items
- Platforms: PlayStation 5 and Xbox Series X|S
- Release: 19 November 2026 (midnight, Singapore time, per the PS Store)

What the Ultimate Edition adds

Rockstar describes the Ultimate Edition as an exclusive collection of items threaded across all aspects of Jason and Luciaâ??s story. The PS Store listing says the upgrade includes exclusive in-game bonuses, uncovered behind each chapter, and special destinations that are only open for business with the Ultimate Edition.

Rockstar has not turned that into a neat checklist on the pages I could read, so I will not guess at the item list. If you care about those extras, read the Learn More section on Rockstarâ??s site before you

pay the extra S$27. Everyone else can treat the Standard Edition as the full story.

Early purchase bonus: the Vintage Vice City Pack

Rockstar also advertises an early purchase bonus called the Vintage Vice City Pack, with the line â??purchase early to get unique benefits that flash back to when the neon burned brightestâ?•. The page does not say how long â??earlyâ?• lasts, so do not assume it stays open all month.

If you want the bonus, buying in the first few days is the safe move. Check the offer terms on the store page at checkout, since digital purchases come with Rockstarâ??s terms of service and may need a Rockstar Games account and an internet connection for some features.

The story, in two lines

The game is set in Vice City, USA, across the state of Leonida. Jason and Lucia have always known the deck is stacked against them. When an easy score goes wrong, they end up in the middle of a criminal conspiracy and have to rely on each other more than ever to make it out alive.

Rockstarâ??s launch page also points players to an in-game radio, official score and soundtrack, and a launch gallery of screenshots, so there is plenty to browse before you commit.

Buying tips for Singapore players

- Buy from the official PS Store or Microsoft Store listings, not from random resellers or social media sellers
- Check your PS5 storage first, as a big open-world game will need a lot of room
- Watch for scams: ScamShield on 1799 is the helpline if a â??cheap codeâ?• looks too good to be true
- Foodpandaâ??s pandamart has run a separate PS5 bundle lobang, covered in our GTA VI on pandamart guide
