

## IKEA Singapore STORSLINGA Chandelier: June Family Price Guide

### Description

IKEA Singapore's June home page is leaning into affordable statement pieces, led by the STORSLINGA LED chandelier. The eight-arm black-and-white chandelier is listed at an IKEA Family price of S\$69.90, down from the regular S\$94.90 price.

The price is valid from 1 to 30 June 2026, or while stocks last. For households thinking about a living-room or dining-room refresh, this is a practical lighting item to check before paying for more expensive designer-style fixtures.

### The Price And Product Basics

STORSLINGA is a 70cm, eight-armed LED chandelier with a black metal frame and spherical white heads. IKEA frames it as jewellery for the ceiling, but the useful angle is the scale: it is large enough to anchor a room without being priced like a custom fitting.

For more apartment and furnishing guides, browse our [Home & Living](#) coverage.

- IKEA Family price: S\$69.90.
- Regular price: S\$94.90.
- Savings listed: S\$25, or 26% off.
- Price period: 1 to 30 June 2026, while stocks last.
- Product: STORSLINGA LED chandelier, 8-armed, black/white, 70cm.

IKEA pairs the new lighting range with soft fabrics and Scandinavian-style home accents.

## What To Measure Before Buying

Before adding it to cart, measure ceiling height, table width and walking clearance. A chandelier that looks good in a showroom can feel heavy in a compact HDB dining zone if it hangs too low or spreads wider than the table.

Also check whether your existing electrical point sits centrally over the area you want to light. If it does not, the real cost may include installation work, trunking or a rethink of where the fixture belongs.

The June home range includes warm textures and statement pieces for living rooms.

## Best Rooms For The Look

The design is strongest over a dining table, reading corner or compact living-room focal point. It is less suitable for narrow walkways, low-ceiling bedrooms or rooms already crowded with visual details.

The rest of IKEA's June page pairs the light with soft fabrics, handmade rugs and Scandinavian-inspired textures, which is a useful styling cue: let the chandelier carry the shape, then keep nearby furniture calmer.
