

ITZY Tunnel Vision Singapore 2026: Final Asia Stop At Indoor Stadium

Description

ITZY’s third world tour reaches Singapore Indoor Stadium on Saturday, 3 October 2026, as the final Asia stop of the run.

That final-stop billing gives Singapore MIDZYs a clear reason to expect a polished arena production and a set built around the Tunnel Vision era, while the Indoor Stadium setting keeps the event compact compared with a national-stadium show.

Date And Venue

The concert takes place on 3 October at Singapore Indoor Stadium. It is a single listed date, so there is no second local night to fall back on if a preferred section sells out.

The venue is beside Stadium MRT and within walking distance of Kallang Leisure Park and Kallang Wave Mall. Food queues grow quickly before K-pop concerts, making an earlier meal the safer plan.

- Date: 3 October 2026.
- Venue: Singapore Indoor Stadium.
- Tour: ITZY 3rd World Tour Tunnel Vision.

Why The Final Asia Stop Matters

Tour finales often carry extra emotional weight for the artists and audience, even when the core set and production remain consistent. Singapore closes the announced Asia portion of ITZY’s third world tour.

Fans can prepare by following the latest release sequence and revisiting the group’s major singles. Avoid relying on unofficial set lists as a promise; production and encore choices can change between cities.

- Singapore is billed as the final Asia stop.
- Expect music from the current era alongside established group tracks.

Concert-Day Notes

Bring only items permitted by the venue, save the mobile ticket offline and check the assigned entrance before joining a queue. Fan projects should follow organiser and venue rules.

For more K-pop dates, follow Little Big Red Dot's [Entertainment coverage](#).

- Use Stadium MRT where practical.
- Arrange a post-show meeting point in advance.
- Check bag and banner restrictions before travelling.
