Singaporeâ??s automotive scene just got a serious double shot of ambition. On 5 May 2026, Vertex Automobile â?? the sole distributor of Omoda Jaecoo vehicles here â?? officially launched two new models: the all-electric **Jaecoo 5 BEV** and the plug-in hybrid **Jaecoo 8 Super Hybrid 7-Seater SUV**. Itâ??s a twin launch that signals just how quickly Omoda Jaecoo has grown into a force to be reckoned with.

The numbers speak for themselves: the brand hit 1 million units sold globally in just three years, earning the title of the worldâ??s fastest-growing car brand. Right here in Singapore, Omoda Jaecoo recorded a jaw-dropping nearly 600% year-on-year sales increase, ranking as the 3rd best-selling EV brand in Q1 2026.

Jaecoo 5 BEV: Electric with an Edge

The Jaecoo 5 BEV is built for drivers who want a pure-electric SUV thatâ??s sharp, confident, and unapologetically bold. With its off-road-inspired exterior and a feature-rich cabin, the J5 punches well above its class â?? and at $169,999, itâ??s priced to compete.

Key highlights include a **402 km WLTP combined range**, 155 kW of power with 11 kW AC charging, and class-leading **19 ADAS functions** â?? one of the most comprehensive safety suites in its segment. The cabin is equally thoughtful, with pet-friendly Eco materials, a dedicated **Pet Mode**, **Camping Mode**, and even a **Karaoke function** for when the road trip calls for a singalong.

Jaecoo 8 Super Hybrid: Family-Sized, Supercar-Fast

If the J5 is about clean city driving, the Jaecoo 8 is about going further â?? in every sense. This seven-seater Super Hybrid SUV pairs a turbocharged petrol engine with instant electric torque to deliver **315 kW of combined power** and a **0â??100 km/h sprint in just 5.8 seconds**. Oh, and itâ??ll do up to **1,200 km on a full tank and charge** â?? range anxiety, well and truly gone.

Inside, the Jaecoo 8 goes full luxury: **CDC Magnetic Levitation Suspension** that reads the road in milliseconds, **massage and ventilated seats** for every passenger, and a flexible three-row cabin that adapts to family life without compromise. The Jaecoo 8 starts from $234,999.
