

June 2026 Career Events: WSG Interviews, Webinars And Star Vista Fair

Description

Fresh graduates, young professionals and mid-career jobseekers have a dense June calendar to scan. WSG and MyCareersFuture's latest career-events PDF lists virtual interviews, industry webinars, skills seminars and a physical fair at The Star Vista.

The useful part is the sector split. Instead of a generic jobs fair, the calendar separates built environment and engineering, data/AI/tech, financial services and fintech, plus career skills sessions for job-search resilience and AI-assisted job preparation.

Key Dates To Note

- 23 June 2026: Virtual Job Interviews for Built Environment and Engineering roles, 2pm to 5pm.
- 24 June 2026: Virtual Job Interviews for Data, AI and Tech roles, 9am to 6pm.
- 25 June 2026: Virtual Job Interviews for Financial Services and Fintech roles, 9am to 6pm.
- 26 to 28 June 2026: Career activities at The Star Vista, B1, The Star Plaza, 10.30am to 8.30pm.

Webinars And Skills Seminars

The industry-insights webinars cover built environment, tech and cybersecurity, and future-ready finance with AI at work. These are useful if you are still deciding whether a sector is worth applying to before booking interviews.

Career skills seminars run across 23 to 25 June, including job-search resilience, AI job preparation and employability through continuous learning. The calendar also points to 1-to-1 sessions with Career and Skills Advisors.

How To Use The Calendar Well

Pick one sector track and one skills session rather than signing up for everything. A focused plan lets you prepare a tighter resume, better questions and a cleaner follow-up list after interviews.
