

## Kenangan Coffee 1-For-1 Large Frappe Deal: Last-Day Singapore Guide For 29 April

### Description

Kenangan Coffee 1-for-1 is a short deal, so the useful question is whether you can still use it properly on 29 April 2026. Current deal coverage says the promotion gives customers a Buy 1 Get 1 Free offer on Large Frappe drinks from 28 to 29 April 2026, with app orders available all day during the promotion period.

The deal is simple on the surface, but the redemption channel matters. Walk-in and takeaway redemptions were listed for 28 April only during selected time windows, while app orders are available on both 28 and 29 April. The same deal coverage notes that Changi Airport Terminal 2 and Jewel Changi Airport are app-only for this promotion, so do not assume every outlet supports the same redemption method.

### What The Deal Covers

The promotion is for the Large Frappe Series. Buy one large frappe and receive another large frappe free, with the free drink matching the purchased drink in flavour and size. That matching requirement is important if you were hoping to mix two different drinks in one order.

Kenangan Coffee's official menu lists blended options such as Freezy Mocha Chips, Freezy Kenangan Latte and Freezy Signature Double Chocolate. Availability can still vary by outlet and app stock, so check the app menu before promising a specific flavour to a friend.

For value, the deal is strongest when two people actually want the same drink. If you are ordering alone and cannot finish both, the savings may be less useful than it looks. This is a share-with-a-friend deal, not a reason to overbuy.

### How To Redeem On 29 April

Kenangan Coffee's Freezy Mocha Chips is one of the blended drinks to check before ordering.

For 29 April 2026, the practical route is the Kenangan Coffee app because the app channel is listed as available all day on 28 and 29 April. That also makes it easier to check outlet stock, order ahead and

avoid queue uncertainty during peak drink hours.

If you are near Changi Airport Terminal 2 or Jewel Changi Airport, treat the offer as app-only based on the published deal terms. For other outlets, app ordering is still the cleaner option on the last day because the walk-in window mentioned in the deal coverage applied to 28 April.

Before paying, check that the promotion is reflected in the app basket. If the second drink is not shown as free or discounted before checkout, do not assume the outlet will adjust it after payment.

## **Outlets To Think About**

*default watermark*

Kenangan Coffee's Freezy Kenangan Latte is another official menu option for frappe planning.

The deal coverage lists outlets including Raffles City, Changi Airport Terminal 2, Takashimaya, Jewel Changi Airport, VivoCity, Tampines Mall, Compass One, AMK Hub, IMM and Aperia Mall. That gives the promotion a useful spread across town, airport, heartland and workplace areas.

If you are ordering during lunch or after work, choose the outlet based on pickup convenience rather than theoretical distance. A mall outlet that requires a long detour may erase the value of a drink deal, especially if you are rushing between meetings or classes.

For airport users, timing matters even more. Do not place an app order too close to boarding or security checks. A discounted frappe is not worth missing a gate call.

## Terms That Can Catch You

The published terms say the promotion is not applicable for bean selection options or milk upgrades, and it cannot be combined with other discounts, promotions or vouchers. That means customising the drink may change the final price or exclude part of the order from the deal.

The free drink must be the same flavour and size. If you want two different flavours, place your order only after confirming whether the app permits that combination under the promotion. Do not rely on screenshots from someone else's successful order because outlet stock and app behaviour can change.

As with most last-day deals, product availability may run down. If the specific frappe you want is unavailable, choose whether another same-flavour pair still makes sense rather than forcing an order just because the promotion is ending.

## Best Use Case

Use the Kenangan Coffee 1-for-1 Large Frappe deal on 29 April if you can order through the app, collect from a convenient outlet and share two same-flavour drinks. Check the app basket before payment, especially if you are ordering from Changi T2 or Jewel, and skip upgrades or voucher stacking unless the app clearly confirms the final price. The sensible last-day approach is to decide your flavour before opening the app, choose the outlet you can realistically reach, and keep a backup drink in mind in case one frappe is unavailable. If the app basket does not clearly show the second large frappe as free before payment, pause the order and try another outlet or skip the deal. That small check is what separates a useful 1-for-1 treat from an avoidable customer-service problem.

For the Kenangan Coffee 1-for-1 Large Frappe deal on 29 April 2026, the terms to hold onto are app ordering, same flavour and size, no bean-selection options or milk upgrades, and no stacking with other vouchers or discounts. The deal is only useful if the final app basket clearly reflects the free second large frappe before payment, because the promotion is time-limited and tied to the stated ordering conditions rather than a broad in-store markdown.

The last-day tactic is straightforward: open the Kenangan Coffee app, choose the outlet you can actually collect from, pick a frappe flavour both people want, and check that the Changi T2 or Jewel exclusion does not affect your plan. If the item is unavailable or the discount does not show before checkout, skip it rather than trying to fix the order after payment. For office orders, decide the pair before the lunch rush so one person is not left holding two same-flavour drinks that no one wanted.
