

Klook DBS May Deal: Up To S\$100 Off Sitewide Bookings

Description

Klook DBS May deal is the second-batch deal to note because DBS lists May-exclusive Klook savings including S\$50 off, S\$100 off and Sunday sitewide codes for eligible bookings. The important details are the validity window, payment rule and any blackout or booking condition that affects whether the saving actually applies at checkout or at the restaurant.

Key Details

- 1 to 5 May: S\$50 off sitewide bookings with minimum spend of S\$500.
- 5 May exclusive: S\$100 off sitewide bookings with minimum spend of S\$1,000.
- Every Sunday on 10, 17, 24 and 31 May: S\$40 off sitewide bookings with minimum spend of S\$500.
- DBS/POSB Super Saver Saturdays run weekly with 50% off sitewide bookings, capped at S\$50, with minimum spend of S\$100.
- Codes are fastest-fingers-first and payment must follow DBS/POSB card terms.

The useful check is the release timing. DBS says weekly Super Saver Saturday promo codes are released at 12pm sharp every Saturday, which means a late checkout may miss the code even if the travel product is still available.

The page also lists evergreen and cruise-related card promotions, but readers should not mix those terms with the May-exclusive codes unless the checkout page clearly accepts them.

How To Claim

Redeem the relevant promo code through Klook, then confirm that the discount appears before paying. If the code is not visible in the basket, the cap may be fully redeemed or the booking may not meet the minimum spend.

Use the exact travel date, activity and cancellation terms shown by Klook before paying, because a voucher is only useful if the underlying booking still fits your trip.
