Singapore, itâ??s finally here. **Minecraft Experience: Villager Rescue** â?? the hit immersive attraction thatâ??s already wowed crowds in Dallas, London, and Toronto â?? officially opens today, **24 April 2026**, at Green Canvas, Mandai Wildlife Reserve. And yes, this is Asiaâ??s very first stop on the global tour.

Whether youâ??re a seasoned Minecraft veteran or have never placed a single block in your life, this one-hour story-driven adventure is built for everyone. Grab your Orb of Interaction and get ready to craft, explore, and battle your way through eight immersive rooms â?? all in the name of saving a village under siege from a zombie attack.

What Is Minecraft Experience: Villager Rescue?

Created by Montreal-based multimedia studio Supply + Demand in collaboration with Microsoft, Experience MOD, and game developer Mojang Studios, this isnâ??t just a walk-through exhibition. Itâ??s an interactive quest that blends large-scale immersive projections, theatrical sets, motion-tracking gameplay and experiential storytelling â?? all inspired by the worldâ??s best-selling video game, with over 300 million copies sold globally.

Visitors journey through iconic Minecraft biomes including Forest, Mine Shafts, and the Nether on their quest to save the village. Photo: Minecraft Experience

Eight Rooms, One Epic Quest

The experience takes you through eight distinctly themed rooms, each with its own gameplay mechanic and atmosphere. From the lush Minecraft Forest where youâ??ll sharpen your skills, to the Mine Shafts arcade, the perilous Nether, and the Crimson Forest â?? expect to spend around six to twelve minutes per room for a total experience of approximately one hour.

Your key tool throughout the journey is the **Orb of Interaction** â?? a handheld device that vibrates, lights up, and changes colour depending on your actions. Use it to mine resources, battle mobs in close combat, build structures for the villagers, and navigate your way through the quest. Itâ??s what transforms a passive walk-through into something genuinely engaging.

Exclusive In-Game Reward

Hereâ??s something for the Minecraft die-hards: every visitor receives a unique in-game **half-zombie, half-villager cape** via email after their visit. Youâ??ll also have the option to grab the **Obsidian Package** (S$44.90 add-on at time of ticket purchase), which comes loaded with collectorâ??s goodies including a limited-edition tote, gold pin, VIP lanyard, themed mousepad, keyboard caps, and a gaming coaster.

How to Get There

Minecraft Experience: Villager Rescue is located at **Green Canvas, Mandai Wildlife Reserve, 80 Mandai Lake Road, Singapore 729826**. While youâ??re there, consider pairing your visit with other Mandai attractions â?? Singapore Zoo, Bird Paradise, River Wonders, and the newly opened Exploria are all on the same grounds.

Tickets are available via www.minecraftexperience.com/singapore. If youâ??re planning a family outing this weekend, this should absolutely be on your list. Check out our guide to the best things to do in Singapore this weekend for more inspiration.
