

Nespresso Black Friday 2026 Singapore: Gift Card Up To S$40, Sale Opens 27 Nov

Description

default watermark

The Nespresso Black Friday 2026 Singapore sale opens to everyone on 27 November, and the first 30 people to buy a coffee machine online get a limited-edition Nespresso x Swarovski Crystal Ornament. Separately, a gift card of up to S$40 comes with a coffee purchase from 18 November to 31 December 2026. Nespresso calls it its biggest sale of the year.

Nespresso has not published sale prices on the page we checked, so treat this as a timing and perks guide. Check the live price for your machine on Black Friday morning.

Nespresso Black Friday 2026 Singapore: dates and early access

- 26 November: early access for Ambassador and Expert members
- 27 November: the sale opens to all
- 27 to 30 November 2026: first 30 machine buyers get the Swarovski crystal ornament
- 18 November to 31 December 2026: gift card of up to S$40 with a coffee purchase

The ornament is only available on Nespresso.com and the Nespresso mobile app, so it is not part of in-store purchases. Terms and conditions apply to both offers. If you want the ornament, be online when the sale opens on 27 November, because only 30 buyers get it.

The gift card: log in to see your offer

The gift card of up to S$40 is tied to a coffee purchase, and Nespresso says to log in to discover your exclusive offer. The amount is therefore personalised, and the page does not say how it is worked out. The offer is valid from 18 November to 31 December 2026.

Free delivery applies with S$80 spent, and same day delivery is available before 2.30pm, subject to availability. If you drink a lot of capsules, a stock-up order that clears S$80 is the easy way to skip the delivery fee.

Early access on 26 November is for Ambassador and Expert members, so if you already hold one of those statuses, you get a one-day head start. Everyone else waits for 27 November. With limited-edition items in play, that head start could matter for the ornament.

The Nespresso x Swarovski festive collection

The Black Friday page also pushes the Nespresso x Swarovski collection, described as a limited edition range where coffee meets crystal craftsmanship. The festive line-up includes a Citiz machine bundle with a crystal-trimmed machine, a travel mug in a green sleeve and espresso cups in green and pink. There is also a crystal ornament shaped like a capsule, which is the item the first 30 buyers receive.

Nespresso sorts the collection into coffees, machines and accessories. If a machine is on your wish list, the festive bundle is the one that matches the ornament giveaway most closely. Whether it is part of the Black Friday discount is not stated, so confirm on the product page.

How to shop it smartly

- Join or log in before 26 November, so you are ready if you qualify for early access
- Decide on your machine now, then compare the live price on 27 November
- Check your gift card offer after login, before you add capsules to the basket
- Hit S$80 in one order to get free delivery
- Remember the S$40 gift card offer runs to 31 December, but the ornament ends on 30 November

A coffee machine is also a decent Christmas present for the office pantry or a parent who still uses instant. Our Kobo eReader promotion is another gift idea that runs into December, and the Black Friday 2026 roundup tracks the other sale end dates.
