

## Nike Singapore Extra 30% Off Sale Items With Code ICONIC From 15 to 26 April 2026

### Description

Nike Singapore is running an **extra 30% off selected sale items** from **15 to 26 April 2026**, and all you need is the promo code **ICONIC** at checkout. The catch? You will need to buy at least two sale items to qualify but with Nike's seasonal clearance already marked down, this is a strong deal for anyone looking to refresh their sneaker rotation or stock up on workout gear.

The promotion is live on [Nike Singapore's online store](#) and applies on top of existing sale prices, making it one of the deeper discounts Nike has offered in Singapore so far this year.

### How the Nike Extra 30% Off Sale Works

This is a layered discount promotion. Items in Nike's seasonal sale section are already reduced typically by 20% to 50% off their original prices. The promo code **ICONIC** takes an additional 30% off those sale prices, which means you could be looking at total savings of 50% to 65% off retail.

The key condition is a **minimum purchase of two sale items**. You cannot apply the code to a single item your cart needs at least two products from the sale section before the promo code becomes valid.

## What to Shop

Nike's seasonal sale covers a broad range from running shoes to lifestyle sneakers to training apparel. Here are the categories worth browsing:

### Running Shoes

Look for the **Nike Air Zoom Pegasus**, **React Infinity**, and **Vomero** lines in the sale section. These are proven daily trainers that rarely dip this low. If you find your size, do not hesitate — popular sizes tend to sell out quickly during these promotions.

## Lifestyle Sneakers

Classic silhouettes like the **Air Force 1**, **Dunk Low**, and **Air Max** frequently appear in Nike's seasonal clearance. With the additional 30% off, you could pick up a pair of Dunks for well under \$100.

## Training and Gym Gear

Nike's **Dri-FIT** tees, training shorts, and joggers are solid staples for the gym. Buying two training tops or a top-and-shorts combo is an easy way to hit the two-item minimum while keeping your cart practical.

## Women's Sports Bras and Tights

The **Nike Pro** and **Nike One** collections often feature in seasonal sales. Performance sports bras and training tights at an extra 30% off represent genuinely good value.

## Kids' Collection

If you are shopping for the little ones, Nike's kids' section includes mini versions of popular sneakers as well as school-friendly shoes and sport jerseys – all eligible for the promo code.

## Is It Worth It?

If you have been waiting for Nike prices to drop before buying, this is about as good as it gets outside of major shopping events like 11.11 or Black Friday. The two-item minimum is easy to meet – pair a sneaker with a Dri-FIT tee, or grab two pairs of shoes if you have been eyeing both. At an extra 30% off already-reduced prices, the effective discount is substantial.

Just remember the sale runs from **15 to 26 April 2026**, and popular sizes and colourways tend to disappear fast. If you spot something you like, it pays to act sooner rather than later.
