

Ola Eco Paddle Sentosa: S$5 Coastal Clean-Up Kayak Dates In June

Description

default watermark

Ola Eco Paddle Sentosa is a short coastal clean-up by kayak, not a normal leisure rental. The June sessions run on 14 and 28 June from 10am to 12pm, giving participants two hours on the water around Sentosa while collecting marine litter.

The format is useful for families and groups who want an outdoor activity with a clear purpose. You are still kayaking, but the point is to see the coastline at water level and remove trash that would otherwise sit around the shore or drift further out.

Session Details

- Upcoming June dates: 14 and 28 June 2026.
- Time: 10am to 12pm.
- Price: S$5.
- Meeting point: Ola Beach Club at Sentosa.
- Age suitability: from age three; children aged seven and below must be accompanied by an adult.

Who It Suits

This is better for people who do not mind sun, salt water and a bit of mess. It can work for parents with primary-school-aged children, youth groups, friend groups and corporate volunteers looking for a low-cost sustainability activity. Very young children can join only if an adult is ready to manage both kayaking and safety throughout the session.

What To Prepare

Wear clothes that can get wet, use sun protection and bring a change of clothes. A waterproof pouch for your phone is useful if you want photos, but do not bring loose items that can fall into the water. Since the session starts at 10am, arrive early enough to find Ola Beach Club, settle waivers and get

instructions before paddling out.

Booking Link

Check the Ola Eco Paddle event page for available dates, age rules and registration updates before heading to Sentosa.
