Inside, the Omoda E5 prioritizes driver comfort with an intelligent and luxurious interior. Highlights include a large 24.6-inch curved touchscreen, a multi-function leather steering wheel, and customizable ambient lighting. Premium touches, such as eco-leather seats and a Sony 8 sound system, elevate every journey, making the Omoda E5 a perfect blend of style, comfort, and innovation.

Sustainable Power Meets Exceptional Performance

Fully assembled in China to the highest standards, the Omoda E5 for the Singapore market ensures exceptional quality and reliability. Powered by state-of-the-art electric technology, the E5 boasts an impressive range of 430 km with an ultra-low energy consumption of 15 kWh/100 km, minimizing the need for frequent charging. Additionally, its fast-charging capabilities allow the battery to go from 30% to 80% in just 28 minutes.

Safety First

The Omoda E5 comes equipped with the Advanced Driver Assistance System (ADAS), a comprehensive suite of 15 features, including blind-spot monitoring and autonomous emergency braking with pedestrian and cyclist detection, ensuring maximum safety on the road.

Ms. Sng Khai Hing, a spokesperson for Vertex Automobile Pte Ltd, stated, â??Vertex Automobile Pte Ltd is thrilled to introduce the Omoda E5 to Singaporean roads. We believe its arrival will mark a significant milestone in the countryâ??s journey towards sustainable transportation, making the EV market more affordable and accessible for Singaporeans interested in a greener lifestyle.â?•
