

PowerA Officially Licensed PlayStation Accessories Now Available!

Description

PowerA acquired an official licensing agreement with PlayStation for the global gaming accessory brand. Commencing on 8 December, the launch will encompass four products in 11 markets in Asia Pacific – Japan, China, Singapore, Hong Kong, Malaysia, Vietnam, Thailand, Indonesia, Philippines, Taiwan, and Korea.

Founded in 2009, PowerA is one of the global leaders in video gaming accessories headquartered in Woodinville, Washington, USA. Its journey extended to the Asia Pacific market and the team has garnered great feedback from many satisfied customers since then. After partnering with PlayStation for more than 17 years, we are excited to bring our popular accessories to the APAC region. This collaboration is geared towards enabling an enhanced gaming experience, further solidifying its commitment to delivering quality products.

Product Line

Eye-Catching Charging Stations

The officially licensed **Solo Charging Station for DualSense™ Wireless Controller** and **Twin Charging Station for DualSense™ Wireless Controllers** allow gamers to charge and display their favorite controllers. These sleek stands match the aesthetic of the DualSense™ Wireless Controllers, so they look great while displayed alongside the PlayStation®5. Gamers can feel confident that their controller is always ready to game as it charges with these captivating stations.

Cables Optimized for Gaming

If room is tight next to the console and a wired connection is preferred, then the officially licensed **USB Charging Cable** for PlayStation®5 is the way to go. This 10ft cable is perfect for charging a DualSense™ Wireless Controller while playing or in between sessions.

To get the best experience of gaming on a PlayStation®5, gamers will want to get their hands on the officially licensed **Ultra High-Speed HDMI Cable**. This cable allows for crystal-clear pictures and crisp sound on nearly any modern TV or monitor. It provides a 4K resolution at 120 Hz and 8k resolution at 60 Hz in HDMI 2.1, plus it supports up to 48Gbps bandwidth, dynamic HDR, and eARC. The Ultra High-Speed HDMI cable really makes games come alive.

About PowerA
