

PSLE results are out on 24 November at 11am, and S1 school choices close at 4.30pm on 30 November

Description

default watermark

The Ministry of Education has fixed Tuesday 24 November at 11am for the release of the 2026 PSLE results, settling the 24-or-25 November window families have been planning around. Pupils receive their results at their own primary schools, and the online portal for Secondary 1 school choices opens half an hour later.

PSLE results are out on 24 November, and the S1 Portal closes at 4.30pm on 30 November. Chart: Little Big Red Dot, from MOE data

Results day at school

Each primary school sends its own collection arrangements to its pupils, so the reporting time and the room come from the school. A child who cannot be there in person can appoint a proxy to collect the results, and the proxy has until Thursday 26 November to do it.

For a child who is anxious about the day, our guide to free helplines and what to say on results day still applies.

The S1 Portal window

School choices go in through the S1 Portal on MOEâ??s S1 Posting website, from 11.30am on Tuesday 24 November to 4.30pm on Monday 30 November. One parent logs in with Singpass and submits for the family, and the other parent does not need to log in as well.

Parents who need help with the form can contact their childâ??s primary school, as long as it is before 4.30pm on 30 November.

Six choices, and room below the score

Each student puts down six schools. MOEâ??s advice is to include at least two or three schools whose cut-off points in previous years were less stringent than the childâ??s PSLE score, because that raises the chance of a place within the six.

Past cut-off points are a reference, not a promise. They can move by a few points from one year to the next, depending on how the cohort scores and which schools it picks.

MOE also asks families to look past the number to school culture, distinctive programmes, subject offerings and CCAs. School profiles sit on SchoolFinder, open-house dates are on Schoolbag, and MOE runs a microsite on Full Subject-Based Banding for the secondary years.

Crest and Spectra apply directly

default watermark

Crest Secondary School and Spectra Secondary School offer a practice-oriented, hands-on route for students eligible for Posting Group 1 or the Posting Group 1/2 option band. Families apply to these two schools directly.

A child who has applied to Crest or Spectra still needs an S1 Option Form, so that there is a posting to another school of the familyâ??s choice if the direct application does not succeed. Both schools hold their own open houses.

S1 posting results are tentatively due on 18 December. Illustration: MOE

When the posting results arrive

S1 posting results are tentatively due on Friday 18 December, and MOE will confirm the date nearer the time. They arrive three ways: on the S1 Portal with a parentâ??s Singpass, by SMS to a local mobile number if one was given in the application, and at the primary school.

That date falls in the middle of the year-end school holidays, which start on Saturday 21 November and run to 31 December.
