

Samsung Black Friday 2026 Singapore: up to S$100 off Mini LED TVs, S$300 off Bespoke AI Laundry Combo, to 30 November

Description

default watermark

Samsung Black Friday 2026 Singapore is live on Samsung.com until 30 November, with up to S$100 off Mini LED 4K TVs and S$300 off the Bespoke AI Laundry Combo. Phones, tablets, wearables, monitors and Bespoke AI fridges also carry Black Friday pricing, and instalment plans stretch up to 36 months at 0%.

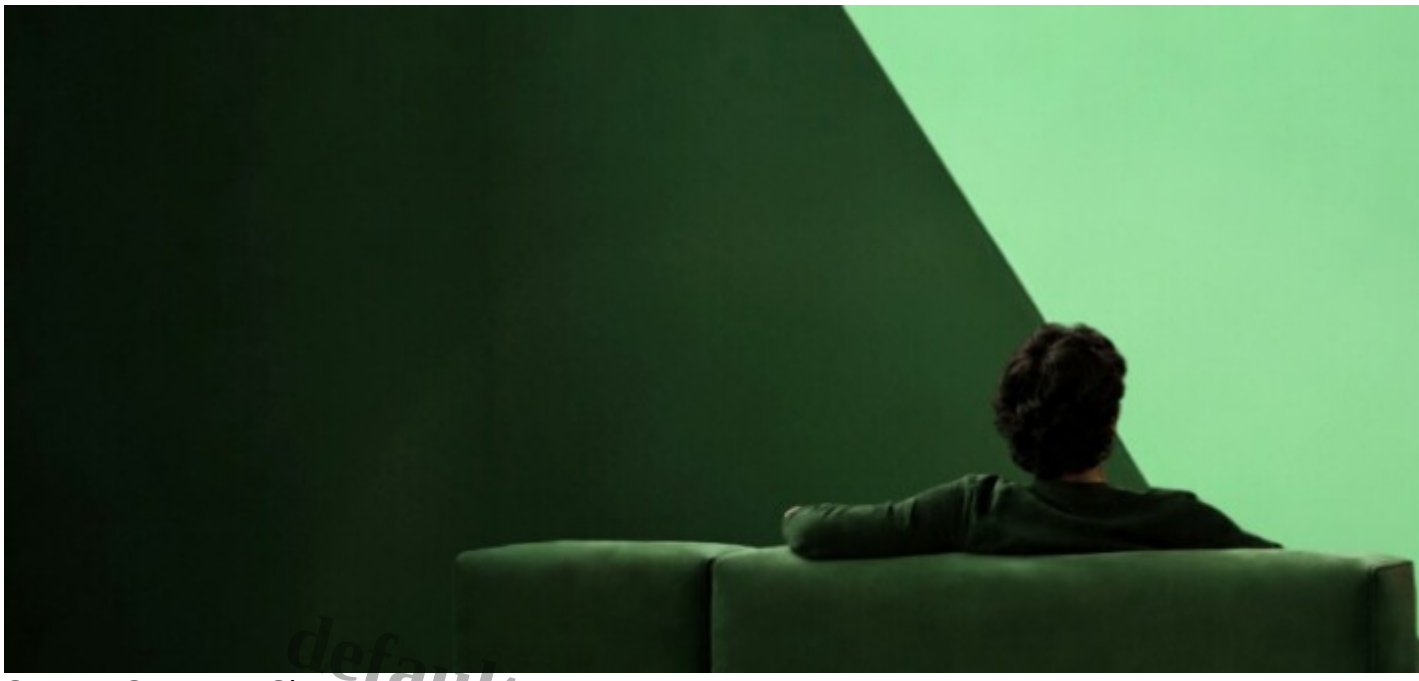

It started on 7 November at 12am and ends on 30 November at 11.59pm, so there are 10 days left. The sale is online only, and every discount is on selected products while stocks last.

What is on offer in Samsung Black Friday 2026 Singapore

- Mini LED 4K TVs: up to S$100 off
- Bespoke AI Laundry Combo: S$300 in savings
- Galaxy phones, tablets, wearables, monitors and Bespoke AI refrigerators: Black Friday prices on selected models
- Free doorstep delivery on selected items bought on the online store

Think of the timing this way: the sale started before Black Friday weekend, and it carries on through Cyber Monday on 30 November. That gives you time to compare, but not time to dither on stock that is already limited, such as the air purifier the page flags as limited stock.

Samsungâ??s page does not print a full price list, so check the live listing for the exact price of the model you want. The headline figures above are the ones the brand states on its Black Friday page.

For TVs, the Mini LED line is the one with a stated discount, at up to S$100 off. Samsung also sells OLED, Neo QLED and Micro RGB models, so browse those pages to see which carry Black Friday prices. Free delivery applies to selected items only, so check the product page before you pay.

Phone buyers: the 5x Rewards boost

Buy a Galaxy S26 Series or Galaxy Z8 Series phone during the sale and your Samsung Rewards Points redeem at five times their value, capped at S$50. The boost can only be used to offset the price of the eligible phone in the same purchase.

Log in to your Samsung account before you check out so your points show. You can also trade in an old phone for an instant discount on a new Galaxy, with the amount depending on the model you hand in.

0% instalment plans, bank by bank

Instalments apply when your checkout value is above S$500. The tenures differ by card, so the longest plan depends on who issues yours.

- UOB and OCBC credit cards: 6, 12, 24 or 36 months
- DBS credit cards: 3, 6 or 12 months
- Standard Chartered VISA and Trust Bank VISA cards: 3, 6, 9 or 12 months
- CIMB PayLater: 3, 6, 9 or 12 months, on a desktop browser only

CIMB PayLater also offers 18, 24 and 36 months for a low one-time processing fee. The 24 and 36-month options need a checkout value of at least S$2,000.

A quick sums check helps here. On a S$2,000 checkout, a 24-month plan works out to roughly S$83 a month before any fee, and a 36-month plan to about S$56. Those figures are our own arithmetic, not Samsungâ??s, and the plan must still be approved by your bank.

Terms to know before you pay

- Valid 7 November 2026, 12am to 30 November 2026, 11.59pm, on selected products while stocks last
- If you return or refund an item, the discounted value is deducted from your refund
- Samsung can reject an order that does not follow the promotion terms, and can amend or end the promotion without notice
- Product images on the page are simulated

Black Friday proper falls on 27 November, so Samsungâ??s window covers the whole run-up. If you are comparing prices, our guide to COURTS, Castlery and Secretlab sales and the Amazon.sg Black Friday sale show what the other big sellers have on until 30 November. Booking a trip too? The Agoda DBS POSB sale also runs to 30 November.

Last tip: big-ticket appliances sell out first, so lock in the Laundry Combo or a fridge early rather than on the final night. Shop at samsung.com/sg/offer/black-friday.
