

Santaâ??s Glowing Christmas Rescue at Science Centre Singapore: S$65 toddler workshop on 5 December 2026

Description

default watermark

Santaâ??s Glowing Christmas Rescue is a Science Centre Singapore workshop for two to three year olds on Saturday 5 December 2026, and it costs S$65 for one child and one adult (S$60 for members). The session runs from 10am to 11.30am in the Party Room at KidsSTOP, and the ticket also covers KidsSTOP admission from 11.30am to 1pm. That makes it a ready-made morning out for parents of toddlers, as the year-end school holidays begin on 21 November.

What happens at Santaâ??s Glowing Christmas Rescue

The workshop is the December session of TOTally Science, KidsSTOPâ??s play-based series for children aged two to three. Science Centre Singapore describes the plot simply: children take on a glow challenge, make a glowing lantern, and race to deliver presents so that Christmas is saved.

It is a parent-and-child format, so each ticket covers one child and one adult, and the activities are hands-on. Expect to be on the floor with your toddler rather than watching from a chair.

TOTally Science is a 2026 series of 10 programmes across five themes, from About Me! in February and March to Year-End Wonders in October and December. Each session is built around play, so the learning comes from touching, mixing and making rather than sitting still.

Date, time, venue and price

- Date: Saturday 5 December 2026
- Time: 10am to 11.30am (workshop), then KidsSTOP play from 11.30am to 1pm
- Venue: Party Room, KidsSTOP, Science Centre Singapore, 15 Science Centre Road, Singapore 609081
- Age: 2 to 3 years old
- Price: S$65 for non-members and S$60 for members, covering 1 child and 1 adult

Tickets are sold through the Science Centreâ??s online ticketing page, which is linked from the TOTally Science page on science.edu.sg. The centre has not published how many places are left, so book early if you have a date in mind.

Is it worth S$65 for a toddler workshop?

default watermark

The price is for a guided 90-minute workshop plus time in KidsSTOP, the Science Centreâ??s learning space for young children, so you are paying for the session as well as the play. For a pair, that works out to S$32.50 each if you split the S$65 ticket. Members save S$5 on the ticket.

If you are comparing other holiday plans, our VivoCity Super Mario holiday guide covers a free option, while the ActiveSG school holiday programmes suit older kids who want sport.

About the exclusive patch

The series is called Year-End Wonders, and it has two parts. The October session, Dino Galore, took place on 17 October 2026. Science Centre Singapore offers an exclusive fabric patch to families who join both the October and December sessions, so check at the counter whether you qualify if you attended in October.

If you missed Dino Galore, the December workshop still stands on its own.

Tips for going with a two or three year old

- Arrive a little early so the toddler can settle in before the 10am start
- Dress them in clothes that can handle craft materials
- Pack water, snacks and a spare top for the KidsSTOP play session afterwards
- Keep the afternoon free, because a morning of crafts and play tends to end in a nap

The Science Centre is closed on Mondays except during public holidays and gazetted school holidays, and otherwise opens Tuesday to Sunday from 10am to 5pm. Our year-end school holiday dates guide has the full calendar if you are planning around older siblings.
