

Secretlab 11.11 sale: up to S$300 off chairs and desks, plus codes for S$120 more until 12 November

Description

default watermark

The Secretlab 11.11 sale takes up to S$300 off selected chairs, desks and accessories, and you can stack one of three minimum-spend codes for up to S$120 more. Everything ends on Thursday 12 November 2026 at 2pm, not midnight, according to the terms on Secretlab Singaporeâ??s site. Prices right now include the MAGNUS Evo desk at S$664 (usual S$699) and the TITAN Evo in black Secretlab PU leather, Regular size, at S$629.

If your WFH setup is still a dining chair and a laptop on a stack of books, this is a decent window, and the Singapore brand rarely goes lower than its year-end sales.

Secretlab 11.11 sale: discounts by product

These are the direct discounts Secretlab lists for the sale, applied automatically on product pages:

- TITAN Evo chairs: up to S$130 off
- MAGNUS Pro electric desks: up to S$169 off
- MAGNUS Evo desks: up to S$120 off
- MAGNUS metal desks: up to S$90 off
- Classics range: S$300 off
- ATLAS: up to S$50 off
- SKINS replacement chair covers: up to 30% off
- Accessories: up to 35% off

Several licensed and collab editions are excluded, including the League of Legends K/DA FIRESTARTER, PokÃ©mon, Automobili Lamborghini and McLaren collections. SKINS Lite and gift cards are also out.

The promo codes and minimum spend

On top of the sale prices, enter one of these codes at checkout:

- **SLEV-MINC111126**: S$40 off a S$999 spend that includes an eligible chair
- **SLEV-MIND111126**: S$60 off a S$1,599 spend that includes an eligible desk
- **SLEV-MINSW111126**: S$120 off a S$1,999 spend sitewide
- **SLEV-MEPP111126**: S$48 off a MAGNUS Evo with its Performance Preset accessories, minimum S$1,249

The minimum-spend codes cannot be stacked with each other, and each works once per order. The full list of eligible items sits on Secretlabâ??s minimum spend promotion page.

What a chair and desk combo works out to

Here is a simple example using todayâ??s prices. A MAGNUS Evo at S$664 plus a TITAN Evo Regular in black PU at S$629 comes to S$1,293. That clears the S$999 chair threshold, so SLEV-MINC111126 takes off S$40 for a total of S$1,253.

Add a monitor arm and cable management to cross S$1,599 and the desk code gives S$60 instead. Only cross S$1,999 for the S$120 code if you actually need the extra pieces, because spending S$400 more to save S$60 more is not a lobang.

MAGNUS Evo XL is the sharper desk deal

The bigger MAGNUS Evo XL is S$679, down from S$799, which is S$120 off and only S$15 more than the standard Evo. If you have the floor space, the XL is the better buy in this sale.

Payment offers that stack with the Secretlab 11.11 sale

Secretlabâ??s product pages also list two payment-partner offers, applied as vouchers inside each app rather than as Secretlab codes:

- Atome: S$30 off a minimum spend of S$600, valid 23 October to 12 November 2026, one redemption per user
- PayLater by Grab: PAYLATERIT8 for S$8 off S$250, PAYLATERIT25 for S$25 off S$700, and PAYLATERIT55 for S$55 off S$1,400, valid until 31 March 2027

The S$55 Grab voucher only works with the 8 or 12 month instalment plans. Check that the voucher shows as applied before you pay, because neither partner will add it back afterwards.

The trade-off: no 30-day trial on sale chairs

default watermark

Secretlab normally lets you try a TITAN Evo at home for 30 days, but its own product page says the trial covers chairs that are not on sale. In other words, a discounted chair is a committed purchase. If you have never sat in one, it is worth trying a friendâ??s or checking reviews of the exact size before you pay.

Delivery is free flatpack shipping straight from Secretlab, which means some home assembly. Clear a corner and an evening before the boxes arrive.

Things to check before you check out

- Deadline: 12 November 2026, 2pm SGT. Secretlab can shorten or extend the period at its discretion.
- Chair size: Small, Regular and XL fit different heights and weights, so use Secretlabâ??s size guide first.
- Material: prices differ between Secretlab PU leather, SoftWeave Plus fabric and NanoGen, so compare the exact variant.
- Pricing errors: Secretlab reserves the right to correct errors and cancel offers while stocks last.

Furnishing the rest of the study? HipVanâ??s MEGA11 code runs until 11 November, and IKEAâ??s YXSTABY gaming range is an option if you want a cheaper desk. For a fuller list of what is live, see our Castlery 11.11 sale coverage too.
