

Sentosa Nature Photography Competition 2026: Dates, Themes And Entry Notes

Description

Sentosa Nature Photography Competition 2026 gives local photographers a focused reason to slow down on the island instead of treating it only as a beach or attractions stop.

The competition covers Youth and Open categories and is a collaboration between Sentosa Development Corporation, Nikon Singapore, SAFRA Content Creator Club and the Earth In Focus Singapore Nature Film Festival.

Dates And Themes

The event page lists 10 May to 30 June 2026, while the competition period for Sentosa Nature Photographer of the Year 2026 runs from 11 May 2026 at 00:01 SGT to 30 June 2026 at 23:59 SGT.

Photographs must be taken on Sentosa during the competition period. The stated themes include Living Land, which looks at human and nature coexistence, and Living Being, which focuses on people and other living creatures sharing the environment.

Who It Suits

This is a better fit for patient nature observers than quick selfie-hunters. The useful subjects are likely to be coastal plants, insects, birds, reptiles, intertidal details and the traces of people moving through these habitats.

Photographers should budget time for weather, tide, safe walking routes and a second visit if the first outing does not produce a strong story.

Pair It With A Sentosa Day

A morning or late-afternoon route can be paired with LBRD's [Fort Siloso free day tour guide](#) or the [Ola Eco Paddle Sentosa cleanup guide](#), depending on whether the trip is history-led or activity-led.

Location Notes

- [Sentosa](#)

Booking, registration or visitor details are on the [Sentosa Nature Photography Competition 2026](#) page.
