

Sentosa Sensoryscape Celebrates 1st Anniversary!

Description

Singapore's Sentosa Island recently celebrated the first anniversary of its enchanting Sensoryscape, and we were there to witness the magic! Held at the unique iFLY Singapore, the event was a sensory feast that blended music, technology, and nature in a truly memorable evening.

Check out our 360 video coverage of the event here:

A Symphony of Senses:

The night began with an introduction to the talented composer, August Lum, the mastermind behind Sensoryscape's captivating soundscape. The air buzzed with anticipation as August and his 8-piece band, featuring a flautist, cellist, guitarist, and keyboardist, took the stage. As a former Chinese flute player, I was particularly drawn to the nuances of the wind instruments. It was clear the band members were pouring their hearts into the performance, their passion radiating through the music.

Later in the evening, August returned with a 16-piece band, amplifying the symphony and creating an even more immersive auditory experience.

A Feast for the Eyes (and Stomach!):

Before the second performance, we were treated to a lavish buffet dinner. The spread was not only delicious but also visually stunning, a testament to the attention to detail that permeated the entire

event. I couldn't resist snapping a few photos before indulging! The guests were certainly enjoying the spread with immense pleasure.

iFLY Singapore: A Thrilling Start:

The event's unique location at iFLY Singapore added an extra layer of excitement. I learned that iFLY offers an incredible indoor skydiving experience, allowing anyone from the age of 7 to experience the thrill of freefall in a safe and controlled environment. It's a fantastic alternative to a tandem jump and at a fraction of the cost! (1/5 the cost).

Sensoryscape: A Multi-Award-Winning Wonder:

Sentosa Sensoryscape has rightfully earned its accolades, including the Muse Design Awards for Architectural Lighting Design and Public Landscape Design, and an Honourable Mention at the International Federation of Landscape Architects Awards 2024. The 350-meter sensory walk is a masterpiece of design, engaging visitors's senses through interactive digital light art and nature-inspired soundscapes.

Hands-on Experiences:

The anniversary celebration also highlighted the workshops available at Sensoryscape, including perfume-making and floral handicrafts. These hands-on activities are perfect for families, couples, and friends looking to create lasting memories.

Illuminated Arches and Tactile Trellises:

Walking through the illuminated floral arches was like stepping into a dream. The interactive light displays, synchronised with the soundscape, created a magical atmosphere, especially at night. The

Tactile Trellis, with its diverse textures, inspired me to appreciate the beauty of nature's intricate designs, from the velvety Chinese Wormwood to the spiky Juniperus species.

Tactile Trellis

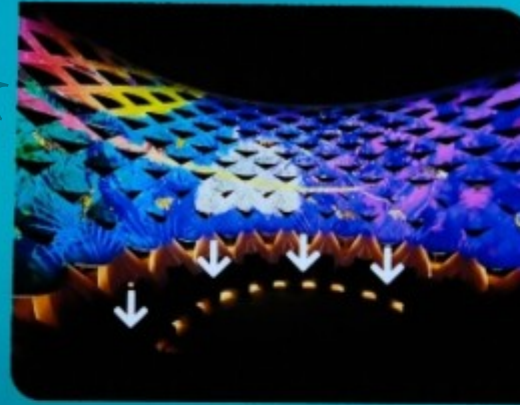

Explore a world of intriguing textures, from the velvety Chinese Wormwood, the feathery Asparagus plant and the spiky nature of the Juniperus species. Here, the petal-like granolithic vessel of Tactile Trellis, these tactile plants and many other treasures are sources of inspiration for man-made designs.

Discover ImagineNite

A Day and Night Experience

Come dusk, wave your hand at the four designated spots within this garden and uncover the creatures hidden in the tropical forest. Witness the birth of the ethereal superbeing that embodies the soul of Sentosa island.

The AR experience at Symphony Streams and Scented Sphere is available all day, while the ImagineNite light and sound show and Senses AR experience (Upper Deck) run from 7:30pm to 9:15pm daily.

A Day and Night Experience

As evening fades into night, this plaza bursts into life with animated light beams extending skyward, beckoning guests from afar towards Sensoryscape.

The AR experience at Symphony Streams and Scented Sphere is available all day, while the Imaginite light and sound show and Senses! AR experience (Upper Deck) run from 7:30pm to 9:00pm daily.

The Lookout Loop offered panoramic views of the surrounding landscape, enhanced by animated light beams that danced to the music. Walking along the paths, I was captivated by the sophisticated light projections that responded to our movements, turning the ground into an interactive canvas. I felt like a kid again, jumping and playing with the lights.

Senseri: The Mythical AR Superbeing:

One of the highlights of the evening was the unveiling of Sentosa Sensoryscape's *NEW* AR mythical superbeing, the Senseri. By downloading the ImagiNite app and scanning the AR marker at designated booths, I was able to bring Senseri to life on my phone screen, watching it soar through the night sky. This interactive experience adds a whole new dimension to the Sensoryscape adventure.

Behold the awakening of Senseri

As dawn breaks, Senseri takes flight, igniting the Sentosa with flashes of radiance.

Embodying the diversity of the island, it stands as a symbol of spirit, strength and wisdom. More than that, it is a physical manifestation of Sentosa Island's duality - Ridge and Reef.

The upper part of its form represents the Ridge, evoking an ecosystem of the island's forests, hills and life forms. The underside symbolises the Reef, mirroring the dynamic ecosystem of the sea.

Begin your journey of ImagiNite and ignite your sixth sense of imagination.

Join us on this Senseri augmented reality (AR) experience:

1

Download the ImagiNite app with #Sentosa Free Wifi

2

Tap "Discover Senseri" or "AR" in the app to launch the AR camera.

3

Scan the AR marker above.

4

Point your camera upwards to view Senseri's flight from 7:30pm to 9:30pm daily.

Word Block Photo-taking:

The *NEW* Word Block photo-taking activity was a fun addition to the event, providing guests with a unique keepsake of their visit.

A Night of Sensory Delights:

The Sentosa Sensoryscape anniversary celebration was a testament to the power of combining nature, technology, and art. It's a must-visit destination for families, tourists, and anyone seeking a unique and immersive experience. Whether you're captivated by the illuminated arches, inspired by the tactile trellises, or enchanted by the mythical Senseri, Sentosa Sensoryscape offers something for everyone.

Tips for Your Visit:

- Download the ImagiNite app before your visit to experience the AR magic.
- Check the Sentosa website for workshop schedules and availability.
- Visit Sensoryscape at night to fully appreciate the illuminated displays.
- Bring your camera to capture the magical moments.
- Try the iFLY Singapore experience for an added thrill!

Sentosa Sensoryscape truly offers a night of impressive visual displays and hands-on activities for all ages. It's a perfect destination to indulge your senses and create unforgettable memories.
