

Singapore Night Festival 2026: Second Weekend Highlights Not to Miss

Description

Singapore Night Festival 2026 is into its second and final weekend, and if you missed the opening, this is your last chance to catch Singapore's largest nocturnal experience. Running from 21 August to 5 September, the 17th edition brings this year's theme, Myths and Legends, to life across the Bras Basah Bugis precinct. We shared [our own night out at the festival](#) earlier, and here is what is not to be missed this weekend.

Organised by HeritageSG, the festival transforms the city into a place where legends unfold through immersive artworks, projections and experiences inspired by the stories, folklore and traditions of Singapore and Southeast Asia. Two anchor highlights are Tales of Earth and Sea by The Fox, The Folks, and the MALAM Projection Mapping Competition.
