Singapore Zoo lists Wild Architect camp for ages 7 to 10 from 9 to 11 September

Description

default watermark

Singapore Zoo is listing Wild Architect as a ticketed school-holiday programme for ages 7 to 10 on 9 to 11 September 2026, from 9am to 5pm each day. Mandai frames it as a hands-on camp on habitats, animal care and ecosystem roles.

What the three days cover

Mandai describes a day-camp format with no overnight stay. Children explore different environments, learn how the parks care for animals, and build eco-friendly habitats with recyclable materials. The listing also points to teamwork and communication as part of the three-day arc.

The programme sits at Singapore Zoo, 80 Mandai Lake Road. It is tagged ticketed on Mandaiâ??s events board. Booking runs through Mandai ZooSchool; enquiries go to zooschool@mandai.com.

Who it suits

The age band is 7 to 10. A full day runs 9am to 5pm across all three dates, so the slot is for families who can commit to the whole midweek block in the September holidays rather than a single drop-in activity.
