Description

Starbucks Singapore is turning up the whimsy this August, and the headline act is a viral favourite finally making its local debut. The legend arrives: Unicorn Cream Frappuccino

Straight from its viral debut at Coachella 2026, the iconic Unicorn Frappuccino lands here as the Unicorn Cream Frappuccino, available for one magical weekend only from **15 to 17 August**. The Grande-only blend layers creamy coconut milk with Strawberry Acai and Mango Dragonfruit flavours, then finishes with a drizzle of blueberry and white chocolate sauce plus Mango Dragonfruit and Blueberry Powder. Expect a playful push-and-pull of fruity tartness and creamy sweetness in every sip.

You will find it at all stores except a handful of CBD and campus outlets, and via Mobile Order & Pay, while stocks last. If you have been chasing the hype online, this is a rare chance to try it without booking a flight.
