## 12 life-sized worlds to walk through

This is a walk-through show, not a gallery of framed sketches. You move through 12 recreated scenes built around films including My Neighbor Totoro, Kikiâ??s Delivery Service, Princess Mononoke, Spirited Away, Howlâ??s Moving Castle and The Boy and the Heron.

- Meet the Ohmu from NausicaÃ¤ of the Valley of the Wind
- Stand beside Totoro while waiting for the Catbus
- Wander the streets of Spirited Away
- See what the organisers describe as the worldâ??s first eight-metre-tall three-dimensional recreation of the Spirited Away bathhouse

Interactive multimedia installations put you in the middle of each scene. The show is produced by TSUKURU, INC. and M Experience, with support from the Singapore Tourism Board.

Booking tip: the early-bird window started on 12 September 2026 and ends on 17 December 2026, the day before opening. Buying early locks in the free gift, and the resident rate of S$39 is the cheapest adult price on the list. A family of four paying concession for two kids and the resident adult rate works

out to S$136 before any fees, based on the published prices.

## Visitor details for the Studio Ghibli exhibition

- Venue: West Lawn, Gardens by the Bay, 18 Marina Gardens Drive, Singapore 018953
- Dates: 18 December 2026 to 4 July 2027
- Hours: 10am to 7pm daily
- Tickets: Klook is the official ticketing partner

Gardens by the Bay is a short walk from Bayfront MRT, which makes this an easy add-on to a Marina Bay evening. It opens just as the year-end break begins, so a weekday visit is the kiasu way to dodge the queues.

## Why the Ghibli fuss is real

Studio Ghibli was founded in 1985 by Isao Takahata, Hayao Miyazaki and Toshio Suzuki, and has made 25 feature-length films. Spirited Away won the Academy Award for Best Animated Feature, and The Boy and the Heron took the same Oscar in 2024. That track record explains why a ticket launch gets so many people refreshing their phones.

The organisers frame the exhibition as an experience for all ages, with themes of creativity, resilience and caring for the environment. Expect families, couples on date nights and plenty of grown-up fans who have waited years for this.

## Make a day of it

The Christmas season is already in full swing at the Gardens. Our guide to Christmas Wonderland 2026 at Gardens by the Bay covers tickets from S$9 and the dates to 3 January, so you can pair the two on one trip.

Collecting character moments around town? Our PokÃ©mon photo spots at Jewel Changi Airport list is free and open late. For something more reflective, More than Human at ArtScience Museum opens on 28 November.

The organisers say educational programmes are still being developed, with details to come closer to opening. If you are planning a class outing, keep an eye on the official channels.
