Who Should Use	Private participants (coaches, private swim schools, parents/ students)	MOE students taking assessments through their schools/ vendors
Support / Queries	Email: swimsafer.enquiries@saqaquatics.org.sg	Submit via go.gov.sg/ssreport
Use This If...	You're arranging a private SwimSafer assessment and need the theory quiz.	Your student is part of an MOE school SwimSafer cohort.
Do Not Use If...	It's an MOE school cohort use MOE link	It's a private participant use CAMS link

Important: MyActiveSG is not part of either theory quiz system. During the transition, always share the correct link above to avoid confusion.

SwimSafer assessments in the north have moved to Teck Ghee, and the west stays at Jurong West until March 2027

Description

default watermark

SwimSafer assessments for children in the north are no longer held at Yishun. The last session at Yishun Swimming Complex was on 2 November 2026, and the North assessment centre has run from Teck Ghee Swimming Complex at 1771 Ang Mo Kio Avenue 1 since 5 November, while Yishun undergoes enhancement and maintenance works.

The West centre is staying away from home for longer. It moved from Bukit Batok Swimming Complex to Jurong West Swimming Complex at 20 Jurong West Street 93 on 13 August, and that arrangement has now been extended to March 2027 to cover more works planned for early 2027.

SwimSafer 2.0 is the national water safety programme run by Sport Singapore (SportSG) and Singapore Aquatics. It has six progressive stages, with an e-certificate for each one passed. Since July 2025, private assessments arranged through a swim coach have run on the Centralised Assessment Management System (CAMS).

The new slots at Teck Ghee and Jurong West

Both venues hold assessments on Mondays and Thursdays at 5.30pm and 6.45pm. At weekends, Teck Ghee runs at 11.30am, 12.45pm, 2pm and 3.15pm on Saturdays and Sundays. Jurong West has the same four Saturday slots but only three on Sundays, ending with the 2pm session.

Any North booking from 5 November shows Teck Ghee as the venue in the CAMS portal. Parents are asked to check the venue on the booking confirmation. SportSG says it will share longer-term North plans once confirmed, and a separate notice when Bukit Batok reopens.

How booking works on CAMS

Every participant needs an account on the CAMS platform at saqswimsg.org.sg. The participant must be linked to a recognised SwimSafer coach, who has to validate the registration. Payment is made

under â??My Cartâ?• on the platform. The S$50 fee per participant dates from July 2025, when CAMS began and the assessment fee was standardised, so check the amount in your cart before paying.

Registration, validation and payment must all be done by exactly three weeks before the assessment date and time, so a session at 11.30am on a Sunday closes at 11.30am on the Sunday three weeks earlier. You can reschedule before that deadline, but the new assessment must take place within six months of the original date.

On the day

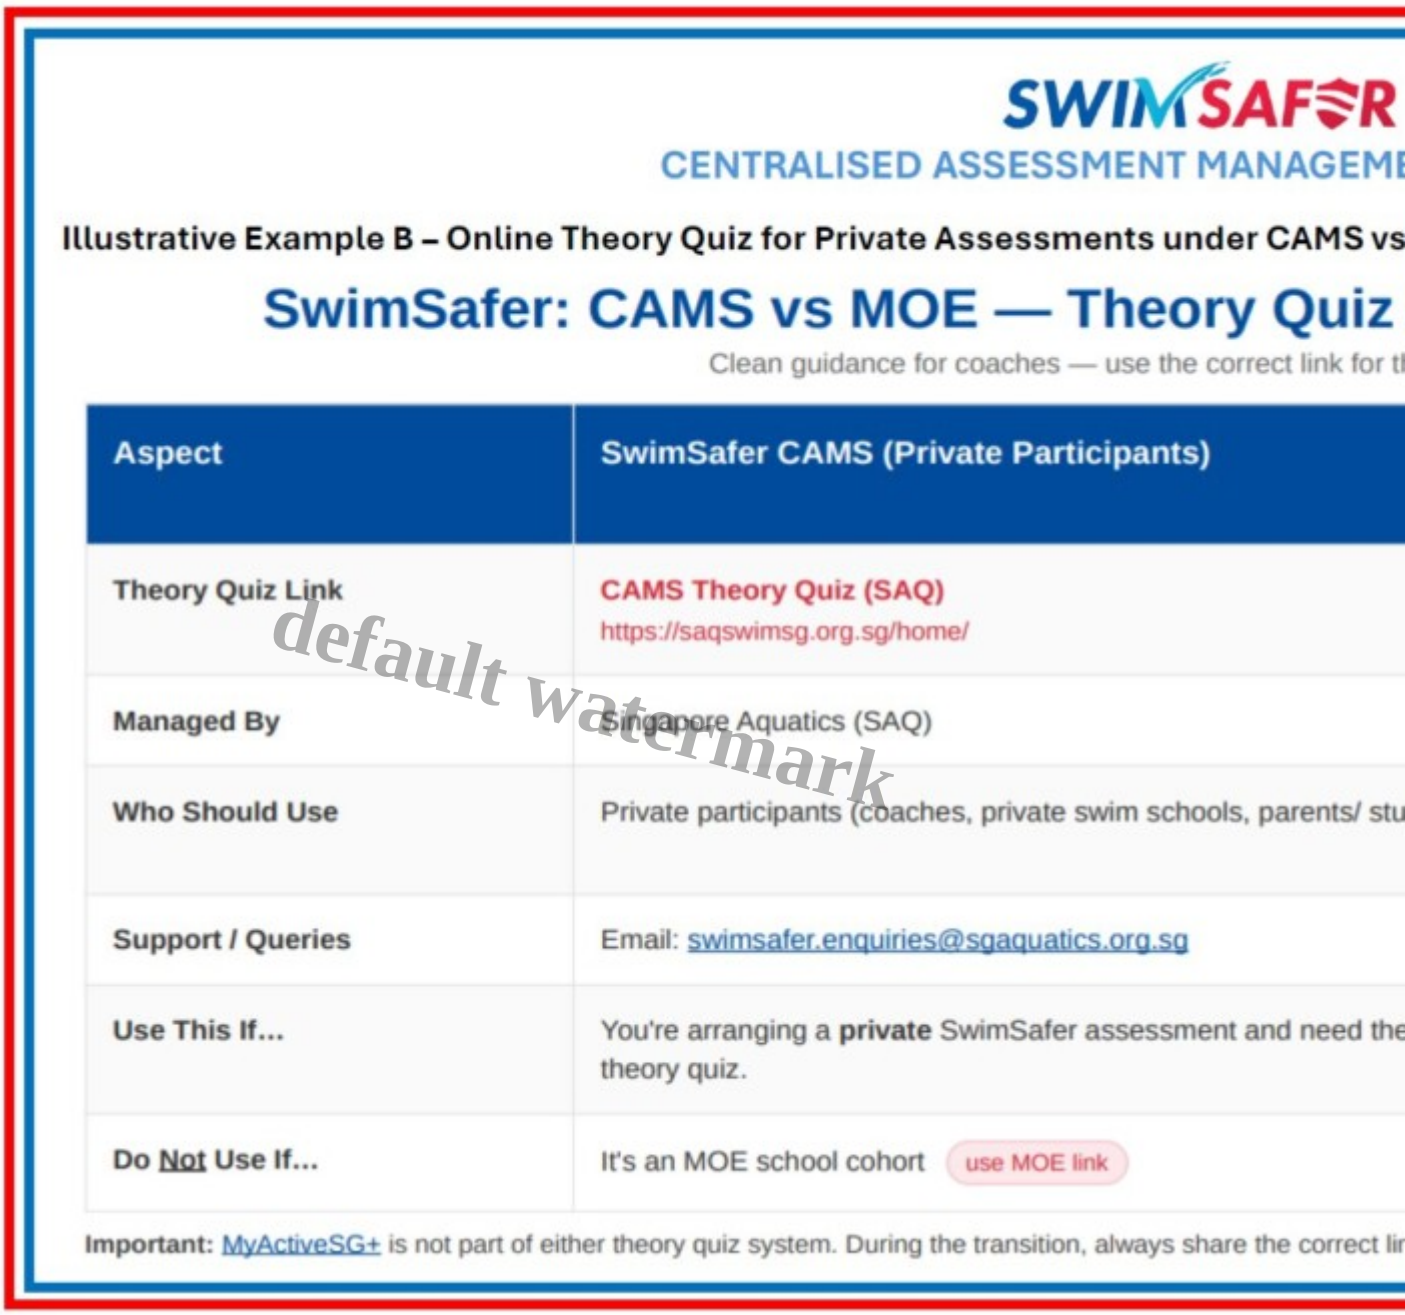

Submit the parental consent form at go.gov.sg/ssconsent beforehand and bring the confirmation email to the registration counter, which opens 30 minutes before the session. Late arrivals are turned away. Bring goggles, plus a T-shirt and shorts for Stages 1 to 4 or a T-shirt and long pants for Stages 5 and 6. A child who turns up at the wrong venue or without this kit will not be assessed.

If an assessment is called off because of bad weather, the child is eligible for a rescheduled slot. The same applies to a child who misses an assessment through illness, as long as a medical certificate is emailed to Rescheduling.swimsafer@sgaquatics.org.sg.

Results, theory quiz and certificates

Results appear under â??My Resultsâ?• within 48 hours, and appeals must be filed on the platform within 72 hours of the results being released. The online theory quiz is also taken on CAMS. Attempts are unlimited, the pass mark is 90 per cent, and the quiz must be passed within seven days of the practical assessment. The certificate is issued only once both parts are complete.

Private SwimSafer assessments use the CAMS theory quiz, while MOE school cohorts use a separate link. Image: SportSG / Singapore Aquatics

Children assessed through their school follow a separate route, with a different theory quiz link that SportSG manages. MyActiveSG+ is not part of either system. Certificates from before July 2025 are still retrieved through FileSG. Questions about CAMS go to swimsafer.enquiries@sgaquatics.org.sg.

Our guide to QR entry at ActiveSG pool gantries covers children, seniors and caregivers.
