

The Yacht Affair June 2026: ONE15 Marina Party Guide

Description

The Yacht Affair June 2026 is scheduled for Saturday, 20 June 2026, with the event window listed from 4pm to 8pm Singapore time. Guests meet earlier at 3.20pm at ONE15 Marina, which is important because a yacht event does not wait like a bar reservation.

Party Social SG positions it as an all-inclusive luxury yacht party with sail-out time, free-flow alcoholic drinks, light bites, a bartender, live DJ, kayak or water mat access and a social crowd.

Tickets And Timing

The Humanitix page lists early-bird and regular prices by gendered ticket tier: ladies early bird at S$128 before moving to S$158, and gents early bird at S$178 before moving to S$208. The page also states that tickets are non-refundable but transferable.

What Is Included

The inclusion list is what makes the ticket easier to judge: sail out, free-flow alcoholic drinks, light bites, bartender, live DJ, kayak or water mat access and party hosting. For groups, that means the value sits in the bundled experience rather than a single activity.

Bring only what makes sense on a boat. Waterproof phone protection, secure footwear and a small bag will matter more than overpacking.

The Yacht Affair includes music, drinks and a social party format on board.

Who Should Go

This is best for adults looking for a social party format rather than a quiet sunset cruise. The four-hour timing, DJ setup and water-mat activity point to a high-energy afternoon on the water.

Because transfer is allowed but refunds are not, book only when the group is firm. For anyone prone to motion sickness, the sail-out format should be considered before buying.

One more planning detail: treat the 3.20pm meeting time as the real start, not a suggestion. Build in time for Sentosa Cove transport, marina wayfinding and any last-minute group coordination, because late arrival can affect the whole sail-out schedule. If you are booking with friends, appoint one person to hold the ticket confirmations and transfer details.
