Tulipmania, one of Gardens by the Bayâ??s most beloved annual floral displays, is returning for its 12th edition from 24 April to 17 May 2026. This yearâ??s showcase at the Flower Dome brings together vibrant tulip blooms and masterpieces from the Rijksmuseum, offering visitors a celebration of Dutch art, culture, and horticultural beauty right here in Singapore.

A Tribute to Dutch Art and Culture

Tulipmania 2026 draws inspiration from centuries of Dutch creativity, spanning the Golden Age masterpieces of Rembrandt and Johannes Vermeer to the bold geometric modernism of Piet Mondrian. The display reimagines iconic works through intricate floral interpretations, creating a unique fusion of fine art and nature that is unlike anything else on the island.

Visitors stepping into the Flower Dome will be greeted by a larger-than-life Delftware Tulipiere â?? a nod to the iconic blue-and-white pottery that has defined Dutch decorative arts for centuries. From

there, the journey continues through a recreation of the Rijksmuseum, the Netherlandsâ?? national museum of arts and history, brought to life with colourful blooms and immersive displays.

Windmills, Tulips, and Eleven Stunning Cultivars

One of the standout installations this year is a replica of the De Kat Windmill, famed as the worldâ??s last working windmill used for paint production. Standing tall amidst a sea of colourful tulips, it makes for an unmissable photo opportunity and a fitting centrepiece for the Dutch-themed experience.
