

Universal Studios Singapore Season Pass: 7 months for the price of 6 until 3 January 2027

Description

default watermark

The **Universal Studios Singapore Season Pass** now comes with one extra month: 7 months of unlimited visits for the price of 6. Resorts World Sentosa says you need to buy or renew by 3 January 2027, and the offer is for a limited time. If you have been going back and forth between single-day tickets and a pass, this tilts the maths.

Here is what the official page says, and what to check before you pay.

What the Universal Studios Singapore Season Pass offer includes

- 7 months of unlimited visits from your selected first visit date, for the price of 6
- Purchase or renewal by 3 January 2027
- Existing pass holders get up to S$20 off when they renew at Guest Services
- Renewals at Guest Services also include 1 extra month of benefits

The page does not publish prices for each pass type until you pick one at checkout, so we are not quoting a figure here. Open the pass page, choose your tier and first visit date, and the total updates in the cart.

Perks that come with the pass

The benefits listed on the official page go beyond walking through the gate as often as you like.

- Priority access, including a priority turnstile entry
- Welcome vouchers: two S$5 food and beverage vouchers and two S$5 retail vouchers
- A birthday month surprise
- Reserved Universal Express passes for on-site purchase, first come, first served while stocks last
- 10% off Ã la carte tickets to Universal Studios Singapore, Singapore Oceanarium and Adventure Cove Waterpark
- 10% off at select in-park food and retail outlets
- Discounts on separately ticketed events, plus invitations to special park events such as Halloween Horror Nights
- Friends and family discounts on selected attraction tickets

The Express passes are the part regulars will care about, since queues for the big rides are what most people grumble about. They are sold on site and stock is limited, so do not count on them for a peak weekend.

Is it worth it?

A rough test: if you expect to visit three or four times over seven months, the pass starts to compete with buying single-day tickets. Add the vouchers (S$20 in total) and the 10% food discount, and the gap narrows further. If you only go once a year, stick with a one-day ticket.

Families with kids at different school holiday schedules tend to get the most from a pass, because visits can be spread over weekdays. Remember to choose your first visit date carefully, since the seven months run from that date.

The festive calendar at RWS

The pass lands just ahead of a busy stretch on Sentosa. We have covered the RWS Season of Joy programme from 27 November, the BTS THE CITY ARIRANG night at Universal Studios Singapore and the DINO-A-LIVE show from 3 to 6 December.

Special events may be ticketed separately or have their own entry rules, so check each one before assuming your pass covers it. The pass page lists terms and conditions, and it is worth reading them before you buy.

One more thing to check is whether your first visit date falls on a peak day. Weekends and school holidays are the busiest times at the park, and the pass does not guarantee shorter queues on those days. Weekday visits are usually calmer, which is one reason regular visitors favour a pass over single tickets.

If you plan to go with friends, ask about the friends and family discount listed in the pass benefits, which is 10% off selected attraction tickets for the people you bring along.

How to get it

default watermark

- Buy online on the Resorts World Sentosa website, or renew at Guest Services if you already hold a pass
- Pick your pass type and first visit date
- Complete the purchase by 3 January 2027

Keep an eye out for Singapore Oceanarium too: it has its own season pass with the same one extra month, per the RWS promotions page.
