

Wicked Wallop #10 Kustom Kulture Weekend 2025 – Better than last year?

Description

Last weekend we visited the 10th edition of Wicked Wallop at Carros Centre in the midst of the afternoon sun. Wooo, the heat was crazy but the atmosphere was a notch up. Read to the end to check out some of the most gorgeous bikes at this event.

When we arrived we were just in time for the convoy arrival which looks really “*satkī*” (fierce aura). The line of motorbikes, with some of them designed like spaceships, kept rolling in like it’s never ending. As a result I was sunburnt as I was admiring each and every machine like a piece of artwork. By the way, did I mentioned the event was held on the rooftop of a mega carpark?

“Who can catch up with me?”

Does size matter to this guy? SURELY NOT! Lots of passion and mineral water is all you need.

I would say the automobile display last year has more to show for, but with beauty like this Lamborghini, you definitely want to stop and look.

This car looks like it came out from an anime comic book

“Where did I put my van keys?”

My friend Wilber thought this van is cute. We can consider driving something like this for an overseas road drive. Any suggestions where?

One of the key highlights for me was the Push Bike event that features these fearless young riders from as young as 6 years old! They rode with such ferocity and intensity, I thought I was watching

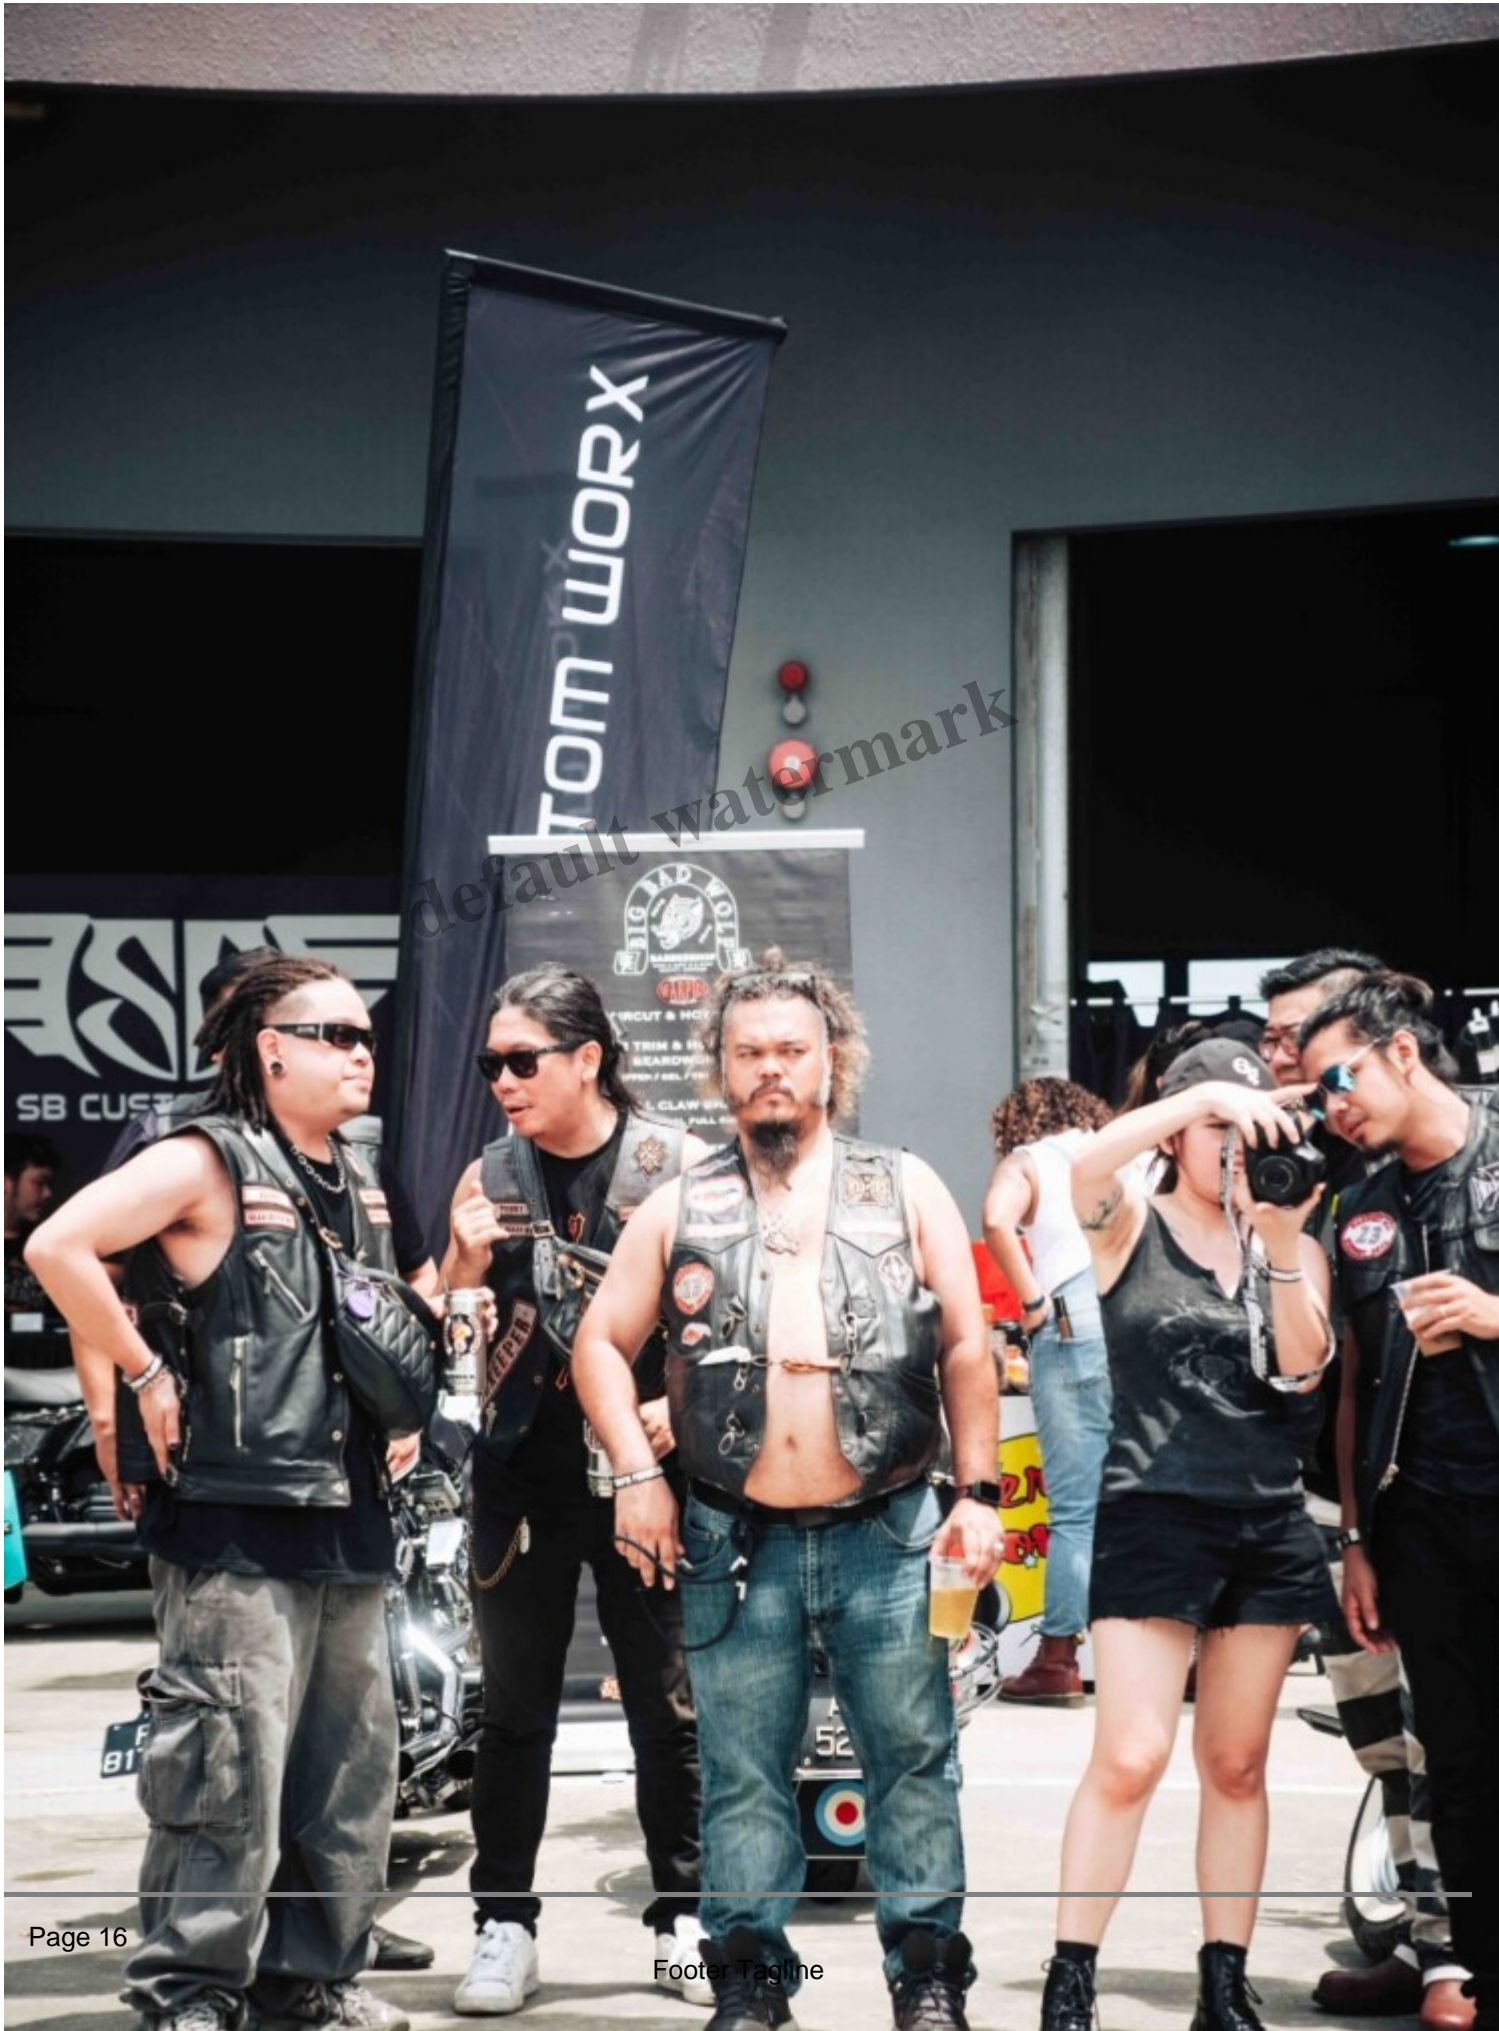

“Tour de Carros Centre”. The bikes they rode has no pedals so they were pushing (while seated) the bike with their legs and they are FAST.

I spotted Marilyn Monroe who is taking part in the Miss Wicked Wallop 2025 competition. But I say best-dressed goes to this brother (*below centre*) in the leather vest. Perfect for this scorching weather, and the occasion. My friend Wilber may be able to pull this off.

Here comes the part you have been waiting for....are you ready....vroom vroom

To conclude, this is not the event for you if you cannot take the heat, literally. I am no motorbike super fan but it is still pretty exciting and eye-opening to witness a community of enthusiasts gathering for an annual celebration of their unique passion.

I felt this year's Wicked Wallop #10 Kustom Kulture Weekend 2025, compared to the [last](#), it was more

happening especially with the motor sound system competition. A whole crowd of men turned into boys in an instance. I could not hold my own excitement as well as I danced along to the pumping music.

Do I expect it to be better next year? Yes. Will I come again? Most likely. Stay “*satk!*” my biker enthusiasts at Wicked Wallop.
