

Xiaomi 18 Pro and Pro Max go on pre-order in Singapore from S$1,799, with a second screen on the back

Description

default watermark

Xiaomiâ??s 18 Pro series is on pre-order in Singapore, and both phones put a second screen on the back. The Xiaomi 18 Pro starts at S$1,799 and the 18 Pro Max at S$2,099 on Xiaomiâ??s Singapore online store, with shipping from 10am on 24 November.

Prices and launch terms

- Xiaomi 18 Pro, 12GB and 256GB: S$1,799
- Xiaomi 18 Pro, 12GB and 512GB: S$1,999
- Xiaomi 18 Pro Max, 12GB and 256GB: S$2,099
- Xiaomi 18 Pro Max, 12GB and 512GB: S$2,299

Both phones come in White, Black, Velvet Red and Cosmic Blue. Not every colour and storage pairing was open for orders on Thursday morning, so check the one you want on the product page.

A S$200 coupon for the series runs until 11.59pm on Monday, 23 November, on selected items. There is also one free gift per order, picked in the cart from a limited allocation and valid to 27 December: a Xiaomi Watch S5 46mm, a Xiaomi Portable Photo Printer Pro or a Xiaomi UltraThin Magnetic Power Bank 10000 25W. Xiaomi Care, the two-year protection plan, is S$125 for the Pro and S$140 for the Pro Max.

What the back screen does

The Proâ??s rear display is a 2.7-inch AMOLED panel at 912 x 596; the Pro Max gets 2.9 inches at 976 x 596. Both run at up to 120Hz under Gorilla Glass Victus 2, beside the camera lenses.

Xiaomi pitches it for four jobs: notifications and live activity updates without flipping the phone over, pinned text or images, a viewfinder so the main rear cameras can shoot selfies and group photos, and small apps generated from a text prompt, which Xiaomi calls GenAI Apps.

The rear display sits beside the Leica camera lenses. Image: Xiaomi

Where the Pro and the Pro Max differ

- Main screen: 6.4 inches at 2436 x 1120 on the Pro; 6.9 inches at 2624 x 1208 on the Pro Max
- Chip: Snapdragon 8 Elite Gen 6 on the Pro; Snapdragon 8 Elite Extreme Gen 6 on the Pro Max
- Battery: 6,000mAh with 90W wired charging on the Pro; 7,050mAh silicon-carbon with 100W wired on the Pro Max. Both take 50W wireless
- Main camera sensor: Light Fusion 960 on the Pro; Light Fusion 960L with LOFIC HDR on the Pro Max
- Weight: 198g for the Pro (203g in Cosmic Blue); 229g for the Pro Max (234g in Cosmic Blue)

Everything else is shared. Both have Leica-branded rear cameras built around a 200MP 23mm main camera at f/1.67, a 200MP 75mm telephoto and a 50MP ultra-wide, plus a 50MP front camera. Both pair 12GB of LPDDR5X memory with UFS 4.1 storage, carry IP68 dust and water resistance, run Xiaomi HyperOS 4 and add an AI Button: a short press starts AI conversation translation, a long press starts an AI voice note.

The catch

The S$200 coupon window closes on 23 November, a day before the first phones ship, so the coupon price means ordering before any unit has shipped. Xiaomiâ??s store offers a seven-day free return and a 15-day replacement or return for manufacturing faults, with free delivery in two to five working days.

On paper, the Pro is the one to look at for the smaller, lighter body with the same two 200MP cameras as the bigger model. The Pro Max is for the larger screen and the bigger battery, from S$2,099. Full specifications are on Xiaomi Singaporeâ??s 18 Pro specs and 18 Pro Max specs.
