

Xiaomi offers up to S\$80 off Redmi Note 17 Pro Max 5G until 30 September

Description

Xiaomi Singapore is offering up to S\$80 off the Redmi Note 17 Pro Max 5G until 30 September 2026. The company has dated that early-bird window from 27 August to 30 September.

The same S\$80 series saving also runs from 1 to 17 September.

Battery and charge claims

The headline spec is a 10,000mAh typical-capacity silicon-carbon battery with 100W HyperCharge. Xiaomi calls this its largest phone battery to date and quotes up to three days of use from internal lab tests.

The same lab sheet lists up to 40 hours of video playback, a 20-minute charge for a day's use, and up to 27W reverse charging. Those are manufacturer figures, not independent tests. Xiaomi also tells buyers to check with the local seller whether a power adaptor is in the box.

Build, screen and chip

The phone is rated IP66, IP68, IP69 and IP69K, with a claimed 2-metre, 72-hour water-resistance certification. The front glass is Corning Gorilla Glass Victus 2, with a 3-metre drop claim.

The display is a 6.83-inch 1.5K CrystalRes AMOLED panel. The chipset is Qualcomm's Snapdragon 6 Gen 5. Xiaomi lists a six-year software support window described as a like-new software experience.

Colours and launch extras

Colours are Cloud Blush, which Xiaomi says shifts from cloud white to warm pink-orange in sunlight, plus Black and Purple. Cloud Blush uses photochromic finish.

Launch extras on the series page include a free gift valued by Xiaomi at up to S\$65.90, 30 per cent off Xiaomi Care, and a free Redmi Headphone Neo with the Pro Max while stocks last.

The early-bird cut of up to S\$80 on the Redmi Note 17 series runs until 30 September 2026.
